Forest Ecology and Management 89 (1996) 227–237

Forest Ecology and Management

Cumulative Author Index, Vols. 80–89

Aber, J.D., *see* Magill, A.H. et al.
Aber, J.D., *see* McNulty, S.G. et al.
Abril, A., *see* Aiazzi, M.T. et al.
Adams, M.B. and T.R. Angradi
Decomposition and nutrient dynamics of hardwood leaf litter in the Fernow Whole-Watershed Acidification Experiment 83 (1996) 61
Adams, R.S., *see* Fleming, R.L. et al.
Adams, W.T., *see* Aitken, S.N. et al.
Ådjers, G., *see* Kuusipalo, J. et al.
Ådjers, G., *see* Tuomela, K. et al.
Aiazzi, M.T., J.A. Argüello and A. Abril
Nodulated and non-nodulated *Prosopis chilensis* (Mol) St. seedlings: economy of carbon and nitrogen 89 (1996) 25
Aitken, S.N., W.T. Adams, N. Schermann and L.H. Fuchigami
Family variation for fall cold hardiness in two Washington populations of coastal Douglas-fir (*Pseudotsuga menziesii* var. *menziesii* (Mirb.) Franco) 80 (1996) 187
Akio, F., *see* Yanhong, T. et al.
Albrektson, A., *see* Örlander, G. et al.
Alfaro, R.I., F. He, G. Kiss, J. King and A. Yanchuk
Resistance of white spruce to white pine weevil: development of a resistance index 81 (1996) 51
Amacher, G.S., *see* Hyde, W.F. et al.
Amateis, R.L., *see* Zhang, S. et al.
Amezaga, I.
Monterrey pine (*Pinus radiata* D. Don) suitability for the pine shoot beetle (*Tomicus piniperda* L.) (Coleoptera: Scolytidae) 86 (1996) 73
Ammer, C.
Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps 88 (1996) 43
Angradi, T.R., *see* Adams, M.B. et al.
Annila, E., *see* Kytö, M. et al.
Aranda, I., L. Gil and J. Pardos
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Archambault, L., *see* Lavallée, R. et al.
Argüello, J.A., *see* Aiazzi, M.T. et al.
Arnold, J., *see* Di-Giovanni, F. et al.
Arnott, J.T., *see* Folk, R.S. et al.
Aronson, J., *see* Ovalle, C. et al.
Aronson, J.-A., *see* Rosén, K. et al.
Arunachalam, A., H.N. Pandey, R.S. Tripathi and K. Maithani
Fine root decomposition and nutrient mineralization patterns in a subtropical humid forest following tree cutting 86 (1996) 141
Arunachalam, A., K. Maithani, H.N. Pandey and R.S. Tripathi
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Ashton, M.S. and B.C. Larson
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Atlegrim, O. and K. Sjöberg
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Atlegrim, O. and K. Sjöberg
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Attiwill, P.M., *see* Bennett, L.T. et al.
Attiwill, P.M., *see* Judd, T.S. et al.
Attiwill, P.M., *see* Weston, C.J. et al.
Austin, M.P. and J.A. Meyers
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95
Avendaño, J., *see* Ovalle, C. et al.
Awang, M., *see* Yanhong, T. et al.
Bakarr, M.I. and D.P. Janos
Mycorrhizal associations of tropical legume trees in Sierra Leone, West Africa 89 (1996) 89
Baldwin, Jr., V.C., *see* Dean, T.J. et al.
Baldwin Jr., V.C., *see* Dean, T.J. et al.
Bare, B.B., *see* Wimberly, M.C. et al.
Barnes, R.D., *see* Gourlay, I.D. et al.
Barreto, P., *see* Johns, J.S. et al.
Barrett, R.H., *see* Boroski, B.B. et al.
Bartelink, H.H.
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193
Belbin, L., *see* Faith, D.P. et al.
Bell, G., A. Kerr, D. McNickle and R. Woollons
Accuracy of the line intersect method of post-logging sampling under orientation bias 84 (1996) 23

Bengtsson, J., *see* Olsson, B.A. et al.
Bengtsson, J., *see* Olsson, B.A. et al.
Bennett, L.T., C.J. Weston, T.S. Judd, P.M. Attiwill and P.H. Whiteman
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Bennett, L.T., *see* Judd, T.S. et al.
Berwert-Lopes, R.
Assessment of tolerable browsing by Eiberle's method: Limitations and future prospects 88 (1996) 87
Binkley, D.
Five years of research on pollution and forests in Sweden 82 (1996) 250
Binkley, D.
What's new in forest nutrient cycling? 82 (1996) 249
Binkley, D., *see* Rhoades, C. et al.
Bisset, H., *see* Dick, J.M.P. et al.
Bissonette, J.A., *see* Sturtevant, B.R. et al.
Black, T.A., *see* Fleming, R.L. et al.
Bøgh, A.
Abundance and growth of rattans in Khao Chong National Park, Thailand 84 (1996) 71
Bongers, F., *see* Poorter, L. et al.
Borden, J.H., *see* Bowers, W.W. et al.
Borden, J.H., *see* Maclauchlan, L.E. et al.
Borders, B.E., *see* Figueiredo-Filho, A. et al.
Borgtoft Pedersen, H.
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Boroski, B.B., R.H. Barrett, I.C. Timossi and J.G. Kie
Modelling habitat suitability for black-tailed deer (*Odocoileus hemionus columbianus*) in heterogeneous landscapes 88 (1996) 157
Bowen, G.D., *see* Haselwandter, K. et al.
Bowers, W.W., J.H. Borden and A. Raske
Incidence and impact of *Polygraphus rufipennis* (Coleoptera: Scolytidae) in Newfoundland 89 (1996) 173
Briggs, R.D., *see* Simmons, J.A. et al.
Brown, M.J.
Benign neglect and active management in Tasmania's forests: a dynamic balance or ecological collapse? 85 (1996) 279
Brown, N.
A gradient of seedling growth from the centre of a tropical rain forest canopy gap 82 (1996) 239
Brown, V.K., *see* Hammond, D.S. et al.
Brunet, J., U. Falkengren-Grerup and G. Tyler
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259
Brzeziecki, B., *see* Kienast, F. et al.
Buongiorno, J., *see* Volin, V.C. et al.
Burgman, M.A.
Characterisation and delineation of the eucalypt old-growth forest estate in Australia: a review 83 (1996) 149
Burkhart, H.E., *see* Zhang, S. et al.
Butterfield, R.P.
Early species selection for tropical reforestation: a consideration of stability 81 (1996) 161
Cain, M.D.
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Carabias, J., *see* Cervantes, V. et al.
Caritat, A., M. Molinas and E. Gutierrez
Annual cork-ring width variability of *Quercus suber* L. in relation to temperature and precipitation (Extremadura, southwestern Spain) 86 (1996) 113
Castley, J.G. and G.I.H. Kerley
The paradox of forest conservation in South Africa 85 (1996) 35
Catling, P.C., *see* Cork, S.J. et al.
Cervantes, V., J. Carabias and C. Vázquez-Yanes
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Chamshama, S.A.O., *see* Mugasha, A.G. et al.
Chandrashekara, U.M.
Ecology of *Bambusa arudinacea* (Retz.) Willd. growing in teak plantations of Kerala, India 87 (1996) 149
Chang, S.X., G.F. Weetman and C.M. Preston
Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1
Chirko, C.P., M.A. Gold, Phu.V. Nguyen and J.P. Jiang
Influence of direction and distance from trees on wheat yield and photosynthetic photon flux density (Q_p) in a *Paulownia* and wheat intercropping system 83 (1996) 171
Chirko, C.P., M.A. Gold, Phu.V. Nguyen and J.P. Jiang
Influence of orientation on wheat yield and photosynthetic photon flux density (Q_p) at the tree and crop interface in a *Paulownia*–wheat intercropping system 89 (1996) 149
Christanty, L., D. Mailly and J.P. Kimmins
"Without bamboo, the land dies": Biomass, litterfall, and soil organic matter dynamics of a Javanese bamboo talun–kebun system 87 (1996) 75
Christensen, M. and J. Emborg
Biodiversity in natural versus managed forest in Denmark 85 (1996) 47
Cissel, J.H., *see* Wallin, D.O. et al.
Clark, D.A., *see* Clark, D.B. et al.
Clark, D.B. and D.A. Clark
Abundance, growth and mortality of very large trees in neotropical lowland rain forest 80 (1996) 235
Claussen, J.W.
Acclimation abilities of three tropical rainforest seedlings to an increase in light intensity 80 (1996) 245
Cole, T.G., R.S. Yost, R. Kablan and T. Olsen
Growth potential of twelve *Acacia* species on acid soils in Hawaii 80 (1996) 175
Colin-Belgrand, M., *see* Ranger, J. et al.

Cony, M.A.
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Coram, J.E., *see* Woodgate, P.W. et al.
Cork, S.J. and P.C. Catling
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Coutinho, L.M., *see* Pivello, V.R. et al.
Cregg, B.M., *see* Zhang, J.W. et al.
Cromack Jnr., K., *see* Monleon, V.J. et al.
Cuartas, P., *see* Garcia-Gonzalez, R. et al.
Cunningham, R.B., *see* Mills, D.J. et al.
Cunningham, R.B., *see* Neave, H.M. et al.
Dai, X.
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Dean, T.J. and V.C. Baldwin Jr.
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49
Dean, T.J. and V.C. Baldwin, Jr.
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25
Deans, J.D., J. Moran and J. Grace
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
De Boer, W. and R.A. Kester
Variability of nitrification potentials in patches of undergrowth vegetation in primary Scots pine stands 86 (1996) 97
DeGraaf, R.M., *see* Vander Haegen, W.M. et al.
De Klerk, M., *see* Poorter, L. et al.
Delaney, M.T., *see* Simmons, J.A. et al.
Del Pozo, A., *see* Ovalle, C. et al.
Desanker, P.
Modelling forest growth 82 (1996) 247
Dezzotti, A.
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
Di-Giovanni, F., P.G. Kevan and J. Arnold
Lower planetary boundary layer profiles of atmospheric conifer pollen above a seed orchard in northern Ontario, Canada 83 (1996) 87
Dick, J.M.P., H. Bisset and C. McBeath
Provenance variation in rooting ability of *Calliandra calothyrsus* 87 (1996) 175
Dickmann, D.I., P.V. Nguyen and K.S. Pregitzer
Effects of irrigation and coppicing on above-ground growth, physiology, and fine-root dynamics of two field-grown hybrid poplar clones 80 (1996) 163
Diekmann, M.
Ecological behaviour of deciduous hardwood trees in Boreo-nemoral Sweden in relation to light and soil conditions 86 (1996) 1
Dolling, A.H.U.
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227
Donahue, J.K. and J. Lopez Upton
Geographic variation in leaf, cone and seed morphology of *Pinus greggii* in native forests 82 (1996) 145
Donahue, J.K., *see* Dvorak, W.S. et al.
Doran, J.C., *see* Pinyopusarerk, K. et al.
Downs, M.R., *see* Magill, A.H. et al.
Duncan, A.J., *see* Iason, G.R. et al.
Dunlap, J.M. and R.F. Stettler
Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233
Dvorak, W.S., J.E. Kietzka and J.K. Donahue
Three-year survival and growth of provenances of *Pinus greggii* in the tropics and subtropics 83 (1996) 123
Dvorak, W.S., *see* Wright, J.A. et al.
Dykstra, D.P.
Landscape forestry 82 (1996) 245
Eddleman, L.E., *see* Krämer, S. et al.
Egnell, G., *see* Örlander, G. et al.
Ehrlich, P.R.
Conservation in temperate forests: what do we need to know and do? 85 (1996) 9
El Bayad, J., *see* Herbauts, J. et al.
Ellsworth, D.S., *see* Wilmot, T.R. et al.
Emborg, J., *see* Christensen, M. et al.
Engstrom, J.K., *see* Johnston, M.H. et al.
Eriksson, H.M., *see* Rosén, K. et al.
Faith, D.P., P.A. Walker, J.R. Ive and L. Belbin
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Fajvan, M.A. and J.M. Wood
Stand structure and development after gypsy moth defoliation in the Appalachian Plateau 89 (1996) 79
Falkengren-Grerup, U., *see* Brunet, J. et al.
Farrell, S.J., *see* Woodgate, P.W. et al.
Fearnside, P.M.
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Fearnside, P.M. and W.M. Guimarães
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
Fenger, M.
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Fenn, M.E., M.A. Poth and D.W. Johnson
Evidence for nitrogen saturation in the San Bernardino Mountains in southern California 82 (1996) 211
Fernandez, I.J., *see* Simmons, J.A. et al.
Ferrandino, F.J., *see* Ward, J.S. et al.
Ferrier, S., *see* Pressey, R.L. et al.
Figueiredo-Filho, A., B.E. Borders and K.L. Hitch
Taper equations for *Pinus taeda* plantations in Southern Brazil 83 (1996) 39
Fimbel, C.C., *see* Fimbel, R.A. et al.

Fimbel, R.A. and C.C. Fimbel
The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215
Finér, L.
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1
Fleming, R.L., T.A. Black and R.S. Adams
Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47
Focardi, S., S. Toso and E. Pecchioli
The population modelling of fallow deer and wild boar in a Mediterranean ecosystem 88 (1996) 7
Foggo, A.
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231
Folk, R.S., S.C. Grossnickle, J.T. Arnott, A.K. Mitchell and P. Puttonen
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197
Fölster, H., *see* Mackensen, J. et al.
Fölster, H., *see* Spangenberg, A. et al.
Fowler, G.W., *see* Khatry Chhetri, D.B. et al.
Fowler, G.W., *see* Khatry Chhetri, D.B. et al.
Francis, A., *see* Gill, R.M.A. et al.
Froend, R.H., *see* Hancock, C.N. et al.
Fuchigami, L.H., *see* Aitken, S.N. et al.
Ganesh, S., *see* Recher, H.F. et al.
Garcia-Gonzalez, R. and P. Cuartas
Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees 88 (1996) 15
García-González, R., *see* Herrero, J. et al.
García-Serrano, A., *see* Herrero, J. et al.
Garin, I., *see* Herrero, J. et al.
George, S.J., *see* Jose, S. et al.
Gerhardt, K.
Effects of root competition and canopy openness on survival and growth of tree seedlings in a tropical seasonal dry forest 82 (1996) 33
Ghosh, S. and J.L. Innes
Comparing sampling strategies in forest monitoring programs 82 (1996) 231
Gibbons, P. and D.B. Lindenmayer
Issues associated with the retention of hollow-bearing trees within eucalypt forests managed for wood production 83 (1996) 245
Gil, L., *see* Aranda, I. et al.
Gill, A.M. and J.E. Williams
Fire regimes and biodiversity: the effects of fragmentation of southeastern Australian eucalypt forests by urbanisation, agriculture and pine plantations 85 (1996) 261
Gill, R.M.A., A.L. Johnson, A. Francis, K. Hiscocks and A.J. Peace
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Gillespie, A.R., *see* Jose, S. et al.
Gilmore, D.W. and R.S. Seymour
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Goebel, P.C. and D.M. Hix
Development of mixed-oak forests in southeastern Ohio: a comparison of second-growth and old-growth forests 84 (1996) 1
Gold, M.A., *see* Chirko, C.P. et al.
Gold, M.A., *see* Chirko, C.P. et al.
González Hernández, M.P. and Fco.J. Silva-Pando
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65
Gossow, H., *see* Reimoser, F. et al.
Gourlay, I.D., J.P. Smith and R.D. Barnes
Wood production in a natural stand of *Acacia karroo* in Zimbabwe 88 (1996) 289
Gourlet-Fleury, S., *see* Hammond, D.S. et al.
Grace, J., *see* Deans, J.D. et al.
Grace, J., *see* Ofori, D.A. et al.
Greatorex-Davies, J.N., *see* Sparks, T.H. et al.
Greenberg, C.H. and A. McGrane
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Gregoire, T.G. and H.T. Valentine
Sampling methods to estimate stem length and surface area of tropical tree species 83 (1996) 229
Grigal, D.F., *see* Johnston, M.H. et al.
Grimm, U., *see* Spangenberg, A. et al.
Groot Bruinderink, G.W.T.A. and E. Hazebroek
Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands 88 (1996) 71
Grossnickle, S.C., *see* Folk, R.S. et al.
Gruber, W., *see* Herbauts, J. et al.
Guimarães, W.M., *see* Fearnside, P.M. et al.
Gullison, R.E., *see* Howard, A.F. et al.
Gustafson, E.J.
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
Gutierrez, E., *see* Caritat, A. et al.
Hager, T.C., *see* Pressey, R.L. et al.
Hall, J.B.
Tropical trees 82 (1996) 252
Hall, M.L., *see* Sparks, T.H. et al.
Hallett, R.A., *see* Magill, A.H. et al.
Hammond, D.S., S. Gourlet-Fleury, P. Van der Hout, H. Ter Steege and V.K. Brown
A compilation of known Guianan timber trees and the significance of their dispersal mode, seed size and taxonomic affinity to tropical rain forest management 83 (1996) 99
Hancock, C.N., P.G. Ladd and R.H. Froend
Biodiversity and management of riparian vegetation in Western Australia 85 (1996) 239
Hanley, T.A.
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199

Hansen, M.H., *see* Schmidt, T.L. et al.
Härkönen, S., *see* Heikkilä, R. et al.
Hartley, S.E., *see* Iason, G.R. et al.
Haselwandter, K. and G.D. Bowen
Mycorrhizal relations in trees for agroforestry and land rehabilitation 81 (1996) 1
Hasenauer, H. and R.A. Monserud
A crown ratio model for Austrian forests 84 (1996) 49
Hazebroek, E., *see* Groot Bruinderink, G.W.T.A. et al.
He, F., *see* Alfaro, R.I. et al.
Hedden, R.L., *see* Shelburne, V.B. et al.
Heikkilä, R. and S. Härkönen
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179
Hengxiao, G., *see* McMillin, J.D. et al.
Herbauts, J., J. El Bayad and W. Gruber
Influence of logging traffic on the hydromorphic degradation of acid forest soils developed on loessic loam in middle Belgium 87 (1996) 193
Heroldová, M.
Dietary overlap of three ungulate species in the Palava Biosphere Reserve 88 (1996) 139
Herrero, J., I. Garin, A. García-Serrano and R. García-González
Habitat use in a *Rupicapra pyrenaica pyrenaica* forest population 88 (1996) 25
Hester, A.J., F.J.G. Mitchell and K.J. Kirby
Effects of season and intensity of sheep grazing on tree regeneration in a British upland woodland 88 (1996) 99
Hibbs, D.E., *see* Knowe, S.A. et al.
Higo, M., *see* Komiyama, A. et al.
Hiraoka, M., *see* Muñiz-Miret, N. et al.

ELSEVIER

Forest Ecology and Management 89 (1996) 239–272

Forest Ecology and Management

Cumulative Subject Index, Vols. 80–89

Above-ground biomass
Growth and development of silver birch, pedunculate oak and beech as affected by deer browsing 88 (1996) 55
Abundance
Abundance and growth of rattans in Khao Chong National Park, Thailand 84 (1996) 71
Acacia caven
Land occupation patterns and vegetation structure in the anthropogenic savannas (espinales) of central Chile 86 (1996) 129
Acer saccharum
Base cation fertilization and liming effects on nutrition and growth of Vermont sugar maple stands 84 (1996) 123
Activated carbon
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227
Adaptability
Three-year survival and growth of provenances of *Pinus greggii* in the tropics and subtropics 83 (1996) 123
Afforestation
Effect of provenance variation and singling and pruning on early growth of *Acacia mangium* Willd. plantation on *Imperata cylindrica* (L.) Beauv. dominated grassland 84 (1996) 241
Afromontane
The paradox of forest conservation in South Africa 85 (1996) 35
Agroforestry
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Influence of direction and distance from trees on wheat yield and photosynthetic photon flux density (Q_p) in a *Paulownia* and wheat intercropping system 83 (1996) 171
Root system characteristics with agroforestry relevance of nine leguminous tree species and a spontaneous fallow in a semi-deciduous rainforest area of West Africa 84 (1996) 199
"Without bamboo, the land dies": Biomass, litterfall, and soil organic matter dynamics of a Javanese bamboo talun–kebun system 87 (1996) 75
Influence of orientation on wheat yield and photosynthetic photon flux density (Q_p) at the tree and crop interface in a *Paulownia*–wheat intercropping system 89 (1996) 149
Airborne
Lower planetary boundary layer profiles of atmospheric conifer pollen above a seed orchard in northern Ontario, Canada 83 (1996) 87
Alaska
Classification of spruce beetle hazard in Lutz and Sitka spruce stands on the Kenai Peninsula, Alaska 84 (1996) 251
Albizia falcataria
Factors influencing decline in soil pH in Hawaiian *Eucalyptus* and *Albizia* plantations 80 (1996) 47
Alces alces
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179
Algarrobo dulce
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Alkali soil
Effect of site preparation techniques on *Prosopis juliflora* in an alkali soil 80 (1996) 267
Allelopathy
Effect of NPK fertilizations on *Kalmia angustifolia*: implications for forest disturbance and conifer regeneration 81 (1996) 135
Alley cropping
Mycorrhizal relations in trees for agroforestry and land rehabilitation 81 (1996) 1
Allocational plasticity
Abundance, growth and allometry of red raspberry (*Rubus idaeus* L.) along a natural light gradient in a northern hardwood forest 81 (1996) 153
Allometric
A crown ratio model for Austrian forests 84 (1996) 49
Allometry
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193
Alps
Impact of wild ungulates on forest regeneration and tree composition of mountain forests in the Western Italian Alps 88 (1996) 93
Aluminium
Effects of different forest harvest intensities on the pools of exchangeable cations in coniferous forest soils 84 (1996) 135
Amazon
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Nutrient transfer to the atmosphere by burning of debris in eastern Amazonia 86 (1996) 121
The economic value of managing the açaí palm (*Euterpe oleracea* Mart.) in the floodplains of the Amazon estuary, Pará, Brazil 87 (1996) 163

American marten
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Ammonium
Clearfelling and burning effects on nitrogen mineralization and leaching in soils of old-age *Eucalyptus regnans* forests 89 (1996) 13
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Analysis of variance
Modeling individual tree growth for juvenile loblolly pine plantations 89 (1996) 157
Animal (deer) ecology
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
Annual rings
Wood production in a natural stand of *Acacia karroo* in Zimbabwe 88 (1996) 289
Antithetic point
Comparison of three modern methods for estimating volume of sample trees using one or two diameter measurements 83 (1996) 13
Aphandra natalia
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Arboricide
Changes following 60 years of selective timber harvesting in the Budongo Forest Reserve, Uganda 89 (1996) 101
Area
Old and potential old forest in the Lake States, USA 86 (1996) 81
Arthropod abundance
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Arthropod biomass
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Arthropod communities
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Arthropod prey
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Arthropod seasonality
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Artificial freeze testing
Family variation for fall cold hardiness in two Washington populations of coastal Douglas-fir (*Pseudotsuga menziesii* var. *menziesii* (Mirb.) Franco) 80 (1996) 187
Ash
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231
Assemblages
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Assessment method
Assessment of tolerable browsing by Eiberle's method: Limitations and future prospects 88 (1996) 87
Associations
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Australia
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Austrocedrus chilensis
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
Autumn frost
Autumn frost damage: clonal variation in Sitka spruce 80 (1996) 107
Auxiliary information
Sampling methods to estimate stem length and surface area of tropical tree species 83 (1996) 229
Azimuth
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Balsam fir
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Bambusa arundinacea
Ecology of *Bambusa arudinacea* (Retz.) Willd. growing in teak plantations of Kerala, India 87 (1996) 149
Bark beetle
Interactions of ecologically similar saprogenic fungi with healthy and abiotically stressed conifers 86 (1996) 163
Incidence and impact of *Polygraphus rufipennis* (Coleoptera: Scolytidae) in Newfoundland 89 (1996) 173
Monterrey pine (*Pinus radiata* D. Don) suitability for the pine shoot beetle (*Tomicus piniperda* L.) (Coleoptera: Scolytidae) 86 (1996) 73
Base cations
Effects of different forest harvest intensities on the pools of exchangeable cations in coniferous forest soils 84 (1996) 135

Bayes model
Long-term adaptation potential of Central European mountain forests to climate change: a GIS-assisted sensitivity assessment 80 (1996) 133
Bean
Financial returns from sustainable forest management and selected agricultural land-use options in Costa Rica 81 (1996) 35
Beech forest
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259
Beef
Financial returns from sustainable forest management and selected agricultural land-use options in Costa Rica 81 (1996) 35
Beta distribution
Generalised Importance sampling 86 (1996) 221
Bilberry chemistry
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Bilberry growth
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Bilberry reproduction
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Biodiversity
Old-growth white spruce and balsam poplar forests of the Peace River Lowlands, Wood Buffalo National Park, Canada: development, structure, and diversity 81 (1996) 179
Binoculars and satellites: developing a conservation framework for boreal forest wildlife at varying scales 85 (1996) 53
Eucalypts, arthropods and birds: on the relation between foliar nutrients and species richness 85 (1996) 177
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Fire regimes and biodiversity: the effects of fragmentation of southeastern Australian eucalypt forests by urbanisation, agriculture and pine plantations 85 (1996) 261
Will forest preserves protect temperate and boreal biodiversity from climate change? 85 (1996) 335
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
Bioindicator
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
Biological control
Screening of antagonistic fungi against air-borne infection by *Heterobasidion annosum* on Norway spruce 88 (1996) 249
Biological cycle
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Biological diversity
Conservation in temperate forests: what do we need to know and do? 85 (1996) 9
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Biologically-based growth model
Modeling individual tree growth for juvenile loblolly pine plantations 89 (1996) 157
Biomass
Needle, crown, stem, and root phytomass of *Pinus sylvestris* stands in Russia 82 (1996) 59
Effect of intertree competition on biomass production of *Pinus sylvestris* (L.) half-sib families 86 (1996) 105
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis 88 (1996) 237
Biomass allocation
Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1
Growth analysis of Scots pine and lodgepole pine seedlings 86 (1996) 15
Biomass distribution
Growth and development of silver birch, pedunculate oak and beech as affected by deer browsing 88 (1996) 55
Biomass partitioning
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis 88 (1996) 237
Biomass productivity
Ecology of *Bambusa arudinacea* (Retz.) Willd. growing in teak plantations of Kerala, India 87 (1996) 149
Birds
Predation rates on artificial nests in an industrial forest landscape 86 (1996) 171
Black spruce
Needle litter responses of peatland tamarack and black spruce to fertilization of minerotrophic peatland sites 87 (1996) 257
Black-tailed deer
The effects of cattle grazing on optimal foraging in mule deer (*Odocoileus hemionus*) 88 (1996) 131
Body-mass distributions
An evaluation of forest landscape spatial pattern and wildlife community structure 89 (1996) 139
Boreal
Old-growth white spruce and balsam poplar forests of the Peace River Lowlands, Wood Buffalo National Park, Canada: development, structure, and diversity 81 (1996) 179
Boreal forest
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13

Boreo-nemoral zone
Ecological behaviour of deciduous hardwood trees in Boreo-nemoral Sweden in relation to light and soil conditions 86 (1996) 1

Botryosphaeria dothidea
Botryosphaeria dothidea endophytic in *Eucalyptus grandis* and *Eucalyptus nitens* in South Africa 89 (1996) 189

Boundary
Cutting of trees by local residents in a communal area and an adjacent state forest in Zimbabwe 81 (1996) 101

Box–Cox
An empirical habitat model for moose, *Alces alces*, in Algonquin Park, Ontario 81 (1996) 169

Branching habit
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis 88 (1996) 237

Branch surface area
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215

Brazil
A qualitative successional model to assist in the management of Brazilian cerrados 87 (1996) 127

Brazilian Amazon
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59

British Columbia
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67

Browsing
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps 88 (1996) 43
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179

Browsing damage
Assessment of tolerable browsing by Eiberle's method: Limitations and future prospects 88 (1996) 87

Bud burst
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197

Bud death
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231

Bupalus piniaria
The impact of pine looper moth, *Bupalus piniaria* L. (Lepidoptera; Geometridae) on the growth of Scots pine in Tentsmuir Forest, Scotland 87 (1996) 209

Calamus
Abundance and growth of rattans in Khao Chong National Park, Thailand 84 (1996) 71

Calcium
Decomposition and nutrient dynamics of hardwood leaf litter in the Fernow Whole-Watershed Acidification Experiment 83 (1996) 61
Base cation fertilization and liming effects on nutrition and growth of Vermont sugar maple stands 84 (1996) 123
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253

CAMCORE
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia 88 (1996) 283

Cameroon
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215

Canonical correspondence analysis
Vegetation responses along edge-to-interior gradients in a high altitude tropical forest in peninsular India 87 (1996) 51

Canopy arthropods
Eucalypts, arthropods and birds: on the relation between foliar nutrients and species richness 85 (1996) 177

Canopy depth
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49

Canopy disturbance
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Abundance, growth and allometry of red raspberry (*Rubus idaeus* L.) along a natural light gradient in a northern hardwood forest 81 (1996) 153

Canopy dynamics
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25

Canopy gap
A gradient of seedling growth from the centre of a tropical rain forest canopy gap 82 (1996) 239
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187

Canopy light interception
Influence of orientation on wheat yield and photosynthetic photon flux density (Q_p) at the tree and crop interface in a *Paulownia*–wheat intercropping system 89 (1996) 149

Carbohydrates
Nodulated and non-nodulated *Prosopis chilensis* (Mol) St. seedlings: economy of carbon and nitrogen 89 (1996) 25

Carbon
Long-term effects of site preparation on growth in Scots pine 86 (1996) 27

Carbon allocation
Needle, crown, stem, and root phytomass of *Pinus sylvestris* stands in Russia 82 (1996) 59

Carbon budget
Dynamics and potentials of carbon sequestration in managed stands and wood products in Finland under changing climatic conditions 80 (1996) 113

Carbon cycle
Needle, crown, stem, and root phytomass of *Pinus sylvestris* stands in Russia 82 (1996) 59
Carbon dioxide
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Carbon-nutrient balance
Feeding behaviour of red deer (*Cervus elaphus*) on Sitka spruce (*Picea sitchensis*): the role of carbon-nutrient balance 88 (1996) 121
Carbon sequestration
Dynamics and potentials of carbon sequestration in managed stands and wood products in Finland under changing climatic conditions 80 (1996) 113
Carbon storage
Abundance, growth and mortality of very large trees in neotropical lowland rain forest 80 (1996) 235
Carrying capacity
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179
Cartography
Land occupation patterns and vegetation structure in the anthropogenic savannas (espinales) of central Chile 86 (1996) 129
Carya spp.
Effects of long-term annual and periodic burning on tree survival and growth in a Missouri Ozark oak-hickory forest 82 (1996) 1
Caryodendron orinocense
Soil compaction and topsoil removal effects on soil properties and seedling growth in Amazonian Ecuador 82 (1996) 197
Cassava
"Without bamboo, the land dies": Biomass, litterfall, and soil organic matter dynamics of a Javanese bamboo talun–kebun system 87 (1996) 75
Catchments
Effects of clear-cutting on streamwater quality in forest catchments in central Sweden 83 (1996) 237
Cavity
Issues associated with the retention of hollow-bearing trees within eucalypt forests managed for wood production 83 (1996) 245
Cedar Creek
Changes in ecosystem carbon storage over 40 years on an old-field/forest landscape in east-central Minnesota 83 (1996) 17
Cedrelinga cateniformis
Soil compaction and topsoil removal effects on soil properties and seedling growth in Amazonian Ecuador 82 (1996) 197
Centroid
Comparison of three modern methods for estimating volume of sample trees using one or two diameter measurements 83 (1996) 13
Ceratocystis polonica
Vitality and bark beetle resistance of fertilized Norway spruce 84 (1996) 149
Cerrado
A qualitative successional model to assist in the management of Brazilian cerrados 87 (1996) 127
Chamois diet
Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees 88 (1996) 15
Change over time
Old and potential old forest in the Lake States, USA 86 (1996) 81
Chemical defences
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Chestnut tree
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
China
Influence of direction and distance from trees on wheat yield and photosynthetic photon flux density (Q_p) in a *Paulownia* and wheat intercropping system 83 (1996) 171
Influence of orientation on wheat yield and photosynthetic photon flux density (Q_p) at the tree and crop interface in a *Paulownia*–wheat intercropping system 89 (1996) 149
Chinese-fir
Nutrient cycling in a Chinese-fir (*Cunninghamia lanceolata*) stand on a poor site in Yishan, Guangxi 89 (1996) 115
Chlorophyll bleaching
Seasonal changes in photosynthesis of young *Cryptomeria japonica* growing on ridges and foot-slopes 89 (1996) 93
Chronosequence
Development of mixed-oak forests in southeastern Ohio: a comparison of second-growth and old-growth forests 84 (1996) 1
Clark and Evans's index
Long-term spatial dynamics in an old-growth deciduous forest 83 (1996) 189
Clear-cutting
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Clear-felling
Effects of clear-cutting on streamwater quality in forest catchments in central Sweden 83 (1996) 237
Effects of different forest harvest intensities on the pools of exchangeable cations in coniferous forest soils 84 (1996) 135
Clearfelling
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of southeastern Australia 84 (1996) 159
Clearing
How well protected are the forests of north-eastern New South Wales? — Analyses of forest environments in relation to formal protection measures, land tenure, and vulnerability to clearing 85 (1996) 311
Climate change
Dynamics and potentials of carbon sequestration in managed stands and wood products in Finland under changing climatic conditions 80 (1996) 113

Sixty years of management and natural disturbance in a New England forested landscape 81 (1996) 63
Development and assessment of a gap-type model to predict the effects of climate change on forests based on spatial forest data 83 (1996) 217
Will forest preserves protect temperate and boreal biodiversity from climate change? 85 (1996) 335
Climates
Geographic variation in leaf, cone and seed morphology of *Pinus greggii* in native forests 82 (1996) 145
Climatic fluctuations
Annual cork-ring width variability of *Quercus suber* L. in relation to temperature and precipitation (Extremadura, southwestern Spain) 86 (1996) 113
Clonal plantations
Comparison of *Eucalyptus urophylla* provenance performance at half-rotation in Colombia and hybrid strategies with *Eucalyptus grandis* 83 (1996) 117
Clonal variation
Autumn frost damage: clonal variation in Sitka spruce 80 (1996) 107
Closed canopy
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181
Clustering timber harvests
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
Coarse woody debris
Development of mixed-oak forests in southeastern Ohio: a comparison of second-growth and old-growth forests 84 (1996) 1
Coastal
The paradox of forest conservation in South Africa 85 (1996) 35
Cold tolerance
Three-year survival and growth of provenances of *Pinus greggii* in the tropics and subtropics 83 (1996) 123
Colombia
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia 88 (1996) 283
Competition
A basal area increment model for individual trees growing in even- and uneven-aged forest stands in Austria 80 (1996) 57
Effects of long-term annual and periodic burning on tree survival and growth in a Missouri Ozark oak-hickory forest 82 (1996) 1
Root system characteristics with agroforestry relevance of nine leguminous tree species and a spontaneous fallow in a semi-deciduous rainforest area of West Africa 84 (1996) 199
Effect of intertree competition on biomass production of *Pinus sylvestris* (L.) half-sib families 86 (1996) 105
Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps 88 (1996) 43
The effects of cattle grazing on optimal foraging in mule deer (*Odocoileus hemionus*) 88 (1996) 131
Concentrations
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Conductance
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Conifer regeneration
Effect of NPK fertilizations on *Kalmia angustifolia*: implications for forest disturbance and conifer regeneration 81 (1996) 135
Conservation
Issues associated with the retention of hollow-bearing trees within eucalypt forests managed for wood production 83 (1996) 245
Conservation in temperate forests: what do we need to know and do? 85 (1996) 9
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
Ungulates in temperate forest ecosystems: perspectives and recommendations for future research 88 (1996) 205
Conservation of biological diversity
Conservation of biological diversity in temperate and boreal forest ecosystems 85 (1996) 1
Conservation reserves
Benign neglect and active management in Tasmania's forests: a dynamic balance or ecological collapse? 85 (1996) 279
Conservation strategy
Binoculars and satellites: developing a conservation framework for boreal forest wildlife at varying scales 85 (1996) 53
Contents
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Control-variate
Comparison of three modern methods for estimating volume of sample trees using one or two diameter measurements 83 (1996) 13
Coppice
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Coppice-with-standards
Silvicultural planning under conditions of environmental change: Evaluation of options in a dieback in Austrian oak forests 83 (1996) 133

Cork growth
Annual cork-ring width variability of *Quercus suber* L. in relation to temperature and precipitation (Extremadura, southwestern Spain) 86 (1996) 113
Cork-oak
Annual cork-ring width variability of *Quercus suber* L. in relation to temperature and precipitation (Extremadura, southwestern Spain) 86 (1996) 113
Cork-ring chronology
Annual cork-ring width variability of *Quercus suber* L. in relation to temperature and precipitation (Extremadura, southwestern Spain) 86 (1996) 113
Corn
Financial returns from sustainable forest management and selected agricultural land-use options in Costa Rica 81 (1996) 35
Crown class
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Crown scorch
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Crown structure
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis 88 (1996) 237
Cultivation
Growth at age 30 months of *Acacia* and *Eucalyptus* species planted in *Imperata* grasslands in Kalimantan Selatan, Indonesia 82 (1996) 185
Cupressaceae
Variation in stable carbon isotope discrimination among and within exotic conifer species grown in eastern Nebraska, USA 83 (1996) 181
Cupressus lusitanica
The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215
Damage
Spatial dynamics and impacts of *Pissodes terminalis* (Coleoptera: Curculionidae) in regenerating stands of lodgepole pine 82 (1996) 103
Deciduous hardwood trees
Ecological behaviour of deciduous hardwood trees in Boreo-nemoral Sweden in relation to light and soil conditions 86 (1996) 1
Deciduous stand
Abundance, growth and allometry of red raspberry (*Rubus idaeus* L.) along a natural light gradient in a northern hardwood forest 81 (1996) 153
Decision-making
A qualitative successional model to assist in the management of Brazilian cerrados 87 (1996) 127
Decomposition
Forest floor carbon pools and fluxes along a regional climate gradient in Maine, USA 84 (1996) 81
Fine root decomposition and nutrient mineralization patterns in a subtropical humid forest following tree cutting 86 (1996) 141
Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands 88 (1996) 71
Deer
Fraying damages in the subalpine forest of Paneveggio (Trento, Italy): a dendroecological approach 88 (1996) 81
Progress in predictive management of deer populations in British woodlands 88 (1996) 187
Defence
Vitality and bark beetle resistance of fertilized Norway spruce 84 (1996) 149
Defoliation
Spatial distribution patterns of pine sawflies (Hymenoptera: Diprionidae) in Arizona, US and Sichuan, PR of China 86 (1996) 151
The impact of pine looper moth, *Bupalus piniaria* L. (Lepidoptera; Geometridae) on the growth of Scots pine in Tentsmuir Forest, Scotland 87 (1996) 209
Incidence and impact of *Polygraphus rufipennis* (Coleoptera: Scolytidae) in Newfoundland 89 (1996) 173
Deforestation
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
Deforestation and regrowth phenology in miombo woodland – assessed by Landsat Multispectral Scanner System data 84 (1996) 263
Dendroctonus rufipennis
Classification of spruce beetle hazard in Lutz and Sitka spruce stands on the Kenai Peninsula, Alaska 84 (1996) 251
Dendroecology
Fraying damages in the subalpine forest of Paneveggio (Trento, Italy): a dendroecological approach 88 (1996) 81
Density-dependent mortality
Long-term spatial dynamics in an old-growth deciduous forest 83 (1996) 189
Development
Applications of environmental accounting and the new household economics: new technical economic issues with a common theme in forestry 83 (1996) 137
Diameter distribution prediction
Stand table modelling through the Weibull distribution and usage of skewness information 81 (1996) 19
Diameter growth
Stand structure and dynamics of young red alder as affected by planting density 82 (1996) 69
Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1
Diameter prediction
Estimating diameter at breast height and basal diameter of trees from stump measurements in Nepal's lower temperate broad-leaved forests 81 (1996) 75
Diet
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31

Dietary overlap
Dietary overlap of three ungulate species in the Palava Biosphere Reserve 88 (1996) 139
Dietary similarity
Dietary overlap of three ungulate species in the Palava Biosphere Reserve 88 (1996) 139
Diet selection
Do large herbivores select a diet that maximizes short-term energy intake rate? 88 (1996) 149
Difference between osmotic potential at full and zero turgor ($\nabla\Psi$)
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Dipterocarpaceae
Population dynamics of tree seedlings in a mixed dipterocarp rainforest before and after logging and crown liberation 81 (1996) 85
A gradient of seedling growth from the centre of a tropical rain forest canopy gap 82 (1996) 239
Dipterocarps
Growth of dipterocarp seedlings in artificial gaps: an experiment in a logged-over rainforest in South Kalimantan, Indonesia 81 (1996) 95
Direct gradient analysis
Ecological behaviour of deciduous hardwood trees in Boreonemoral Sweden in relation to light and soil conditions 86 (1996) 1
Discounted cashflow analysis
Simulated financial returns and selected environmental impacts from four alternative silvicultural prescriptions applied in the neotropics: a case study of the Chimanes Forest, Bolivia 89 (1996) 43
Dispersal
A compilation of known Guianan timber trees and the significance of their dispersal mode, seed size and taxonomic affinity to tropical rain forest management 83 (1996) 99
Disturbance
Characterisation and delineation of the eucalypt old-growth forest estate in Australia: a review 83 (1996) 149
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Old and potential old forest in the Lake States, USA 86 (1996) 81
Fine root decomposition and nutrient mineralization patterns in a subtropical humid forest following tree cutting 86 (1996) 141
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
A qualitative successional model to assist in the management of Brazilian cerrados 87 (1996) 127
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
Disturbed forests
Prediction models for estimating total heights of trees from diameter at breast height measurements in Nepal's lower temperate broad-leaved forests 84 (1996) 177
Diurnal, terrestrial birds
Biological inventory for conservation evaluation I. Design of a field survey for diurnal, terrestrial birds in southern Australia 85 (1996) 107
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Biological inventory for conservation evaluation III. Relationships between birds, vegetation and environmental attributes in southern Australia 85 (1996) 197
Diversity
Anthropogenic pressure on tree structure and biomass in the temperate forest of Mamlay watershed in Sikkim 81 (1996) 113
Effects of alternative management regimes on forest stand structure, species composition, and income: a model for the Italian Dolomites 87 (1996) 107
DMD
Linkages between silviculture and ecology: an analysis of density management diagrams 86 (1996) 205
Domestication
Vegetative propagation of *Irvingia gabonensis*, a West African fruit tree 87 (1996) 185
Dominance class
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Dormancy
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Douglas-fir
Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193
Drought tolerance
Three-year survival and growth of provenances of *Pinus greggii* in the tropics and subtropics 83 (1996) 123
Dry forest regeneration
Effects of root competition and canopy openness on survival and growth of tree seedlings in a tropical seasonal dry forest 82 (1996) 33
Dry heat
Germination ecology of twelve indigenous and eight exotic multipurpose leguminous species from Ethiopia 80 (1996) 209
Dry matter distribution
Acclimation abilities of three tropical rainforest seedlings to an increase in light intensity 80 (1996) 245
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193

Dry weight/turgor weight ratio (DW/TW)
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Dynamic wind load
Model computations on wind flow and turning moment by wind for Scots pines along the margins of clear-cut areas 83 (1996) 203
Earlywood
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Earthworms
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253
Ecological attributes
Characterisation and delineation of the eucalypt old-growth forest estate in Australia: a review 83 (1996) 149
Ecological classification system
Development of mixed-oak forests in southeastern Ohio: a comparison of second-growth and old-growth forests 84 (1996) 1
Ecological indicators
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Ecological optimum
Ecological behaviour of deciduous hardwood trees in Boreo-nemoral Sweden in relation to light and soil conditions 86 (1996) 1
Ecological processes
An evaluation of forest landscape spatial pattern and wildlife community structure 89 (1996) 139
Ecological risk assessment
Long-term adaptation potential of Central European mountain forests to climate change: a GIS-assisted sensitivity assessment 80 (1996) 133
Ecological site quality
Use of synoptic variables in predicting white spruce site index 80 (1996) 95
Economic model
Palmito sustainability and economics in Brazil's Atlantic coastal forest 80 (1996) 257
Economics
Effects of alternative management regimes on forest stand structure, species composition, and income: a model for the Italian Dolomites 87 (1996) 107
Ecosystem
An evaluation of forest landscape spatial pattern and wildlife community structure 89 (1996) 139
Ectomycorrhizae
Mycorrhizal associations of tropical legume trees in Sierra Leone, West Africa 89 (1996) 89
Edaphic factors
Vegetation responses along edge-to-interior gradients in a high altitude tropical forest in peninsular India 87 (1996) 51
Edge effect
Vegetation responses along edge-to-interior gradients in a high altitude tropical forest in peninsular India 87 (1996) 51
Edge effects
Predation rates on artificial nests in an industrial forest landscape 86 (1996) 171
Electrolyte leakage
Autumn frost damage: clonal variation in Sitka spruce 80 (1996) 107
Emergent
Abundance, growth and mortality of very large trees in neotropical lowland rain forest 80 (1996) 235
EMU
Will forest preserves protect temperate and boreal biodiversity from climate change? 85 (1996) 335
Environmental accounting
Applications of environmental accounting and the new household economics: new technical economic issues with a common theme in forestry 83 (1996) 137
Environmental heterogeneity
Effects of resource distribution patterns on ungulate foraging behaviour: a modelling approach 88 (1996) 167
Environmental management
A qualitative successional model to assist in the management of Brazilian cerrados 87 (1996) 127
Environmental niche
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95
Ericaeous plants
Effect of NPK fertilizations on *Kalmia angustifolia*: implications for forest disturbance and conifer regeneration 81 (1996) 135
section *Erythrobalanus*
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Espinales
Land occupation patterns and vegetation structure in the anthropogenic savannas (espinales) of central Chile 86 (1996) 129
Eucalypt
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Eucalypt forest
Eucalypts, arthropods and birds: on the relation between foliar nutrients and species richness 85 (1996) 177
Eucalypt plantations
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Eucalyptus
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95

Botryosphaeria dothidea endophytic in *Eucalyptus grandis* and *Eucalyptus nitens* in South Africa 89 (1996) 189
Eucalyptus globulus
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Eucalyptus grandis
Comparison of *Eucalyptus urophylla* provenance performance at half-rotation in Colombia and hybrid strategies with *Eucalyptus grandis* 83 (1996) 117
Eucalyptus microtheca
Growth of 16 provenances of *Eucalyptus microtheca* in a regularly irrigated plantation in eastern Kenya 82 (1996) 11
Eucalyptus nitens
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Eucalyptus regnans
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Eucalyptus saligna
Factors influencing decline in soil pH in Hawaiian *Eucalyptus* and *Albizia* plantations 80 (1996) 47
Eucalyptus urophylla
Comparison of *Eucalyptus urophylla* provenance performance at half-rotation in Colombia and hybrid strategies with *Eucalyptus grandis* 83 (1996) 117
Euterpe oleracea
The economic value of managing the açaí palm (*Euterpe oleracea* Mart.) in the floodplains of the Amazon estuary, Pará, Brazil 87 (1996) 163
Even-aged
A crown ratio model for Austrian forests 84 (1996) 49
Exploitation
The paradox of forest conservation in South Africa 85 (1996) 35
Exposure to sunshine
Seasonal changes in photosynthesis of young *Cryptomeria japonica* growing on ridges and foot-slopes 89 (1996) 93
Extractivism
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Fabaceae
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Faecal analysis
Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees 88 (1996) 15
Fagus sylvatica
Effects of light and soil fertility on growth, leaf chlorophyll content and nutrient use efficiency of beech (*Fagus sylvatica* L.) seedlings 86 (1996) 61
Fallow
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Fallow deer
The population modelling of fallow deer and wild boar in a Mediterranean ecosystem 88 (1996) 7
Fauna
Issues associated with the retention of hollow-bearing trees within eucalypt forests managed for wood production 83 (1996) 245
Feeding habits
Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees 88 (1996) 15
Fertiliser
Growth at age 30 months of *Acacia* and *Eucalyptus* species planted in *Imperata* grasslands in Kalimantan Selatan, Indonesia 82 (1996) 185
Fertilization
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1
Soil compaction and topsoil removal effects on soil properties and seedling growth in Amazonian Ecuador 82 (1996) 197
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Needle litter responses of peatland tamarack and black spruce to fertilization of minerotrophic peatland sites 87 (1996) 257
Fertilizer prescription
The response of growth and foliar nutrients to fertilizers in young *Eucalyptus globulus* (Labill.) plantations in Gippsland, southeastern Australia 82 (1996) 87
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Fiber
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Fiby urskog
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Fine-root
Effects of irrigation and coppicing on above-ground growth, physiology, and fine-root dynamics of two field-grown hybrid poplar clones 80 (1996) 163
Fine root biomass
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181
Fine roots
Fine root decomposition and nutrient mineralization patterns in a subtropical humid forest following tree cutting 86 (1996) 141
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Fire
Effects of long-term annual and periodic burning on tree survival and growth in a Missouri Ozark oak-hickory forest 82 (1996) 1
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of southeastern Australia 84 (1996) 159

Biodiversity and management of riparian vegetation in Western Australia 85 (1996) 239
Fire regimes and biodiversity: the effects of fragmentation of southeastern Australian eucalypt forests by urbanisation, agriculture and pine plantations 85 (1996) 261
Clearfelling and burning effects on nitrogen mineralization and leaching in soils of old-age *Eucalyptus regnans* forests 89 (1996) 13

Floristic composition
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65

Foliage density
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25

Foliage nutrients
Eucalypts, arthropods and birds: on the relation between foliar nutrients and species richness 85 (1996) 177

Foliage traits
Spatial distribution patterns of pine sawflies (Hymenoptera: Diprionidae) in Arizona, US and Sichuan, PR of China 86 (1996) 151

Foliar analysis
The response of growth and foliar nutrients to fertilizers in young *Eucalyptus globulus* (Labill.) plantations in Gippsland, southeastern Australia 82 (1996) 87

Foliar chemistry
Forest ecosystem response to four years of chronic nitrate and sulfate additions at Bear Brooks Watershed, Maine, USA 84 (1996) 29

Foodplant
The effects of shade on the plant communities of rides in plantation woodland and implications for butterfly conservation 80 (1996) 197

Foraging
Feeding behaviour of red deer (*Cervus elaphus*) on Sitka spruce (*Picea sitchensis*): the role of carbon-nutrient balance 88 (1996) 121

Forest
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Habitat use in a *Rupicapra pyrenaica pyrenaica* forest population 88 (1996) 25

Forest damage
Ungulates in temperate forest ecosystems: perspectives and recommendations for future research 88 (1996) 205

Forest decline
Silvicultural planning under conditions of environmental change: Evaluation of options in a dieback in Austrian oak forests 83 (1996) 133
Interactions of ecologically similar saprogenic fungi with healthy and abiotically stressed conifers 86 (1996) 163

Forest disturbance
Effect of NPK fertilizations on *Kalmia angustifolia*: implications for forest disturbance and conifer regeneration 81 (1996) 135

Forest dynamics function
Economic comparison of forest management methods 82 (1996) 159

Forest ecosystem
Dynamics and potentials of carbon sequestration in managed stands and wood products in Finland under changing climatic conditions 80 (1996) 113
Sixty years of management and natural disturbance in a New England forested landscape 81 (1996) 63

Forest edge
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27

Forest evironment
How well protected are the forests of north-eastern New South Wales? — Analyses of forest environments in relation to formal protection measures, land tenure, and vulnerability to clearing 85 (1996) 311

Forest fertilization
Base cation fertilization and liming effects on nutrition and growth of Vermont sugar maple stands 84 (1996) 123

Forest floor
Aboveground biomass and nutrient accumulation in an age sequence of paper birch (*Betula papyrifera*) in the Interior Cedar Hemlock zone, British Columbia 83 (1996) 27

Forest interior
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27

Forest inventory
A basal area increment model for individual trees growing in even- and uneven-aged forest stands in Austria 80 (1996) 57

Forest management
Palmito sustainability and economics in Brazil's Atlantic coastal forest 80 (1996) 257
The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215
Impact of forest management history on the state of forests in relation to natural forest succession Comparative study, North Karelia, Finland vs. Republic of Karelia, Russian Federation 83 (1996) 71
Issues associated with the retention of hollow-bearing trees within eucalypt forests managed for wood production 83 (1996) 245
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Eucalypts, arthropods and birds: on the relation between foliar nutrients and species richness 85 (1996) 177
Benign neglect and active management in Tasmania's forests: a dynamic balance or ecological collapse? 85 (1996) 279
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59
An evaluation of forest landscape spatial pattern and wildlife community structure 89 (1996) 139

Forest management method
Economic comparison of forest management methods 82 (1996) 159
Forest management planning
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
Forest pests
Monterrey pine (*Pinus radiata* D. Don) suitability for the pine shoot beetle (*Tomicus piniperda* L.) (Coleoptera: Scolytidae) 86 (1996) 73
Forest plantation
Nutrient store and export rates of *Eucalyptus urograndis* plantations in eastern Amazonia (Jari) 80 (1996) 225
Forest practices code
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Forest regeneration
Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands 88 (1996) 71
Fraying damages in the subalpine forest of Paneveggio (Trento, Italy): a dendroecological approach 88 (1996) 81
Impact of wild ungulates on forest regeneration and tree composition of mountain forests in the Western Italian Alps 88 (1996) 93
Forestry
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89
Impact of ungulates on forest vegetation and its dependence on the silvicultural system 88 (1996) 107
Forestry plantations
Mycorrhizal associations of tropical legume trees in Sierra Leone, West Africa 89 (1996) 89
Forests
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Fire regimes and biodiversity: the effects of fragmentation of southeastern Australian eucalypt forests by urbanisation, agriculture and pine plantations 85 (1996) 261
Forest stand
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Forest structure
Changes following 60 years of selective timber harvesting in the Budongo Forest Reserve, Uganda 89 (1996) 101
Forest succession
Development of mixed-oak forests in southeastern Ohio: a comparison of second-growth and old-growth forests 84 (1996) 1
Forest use
Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees 88 (1996) 15
Fragmentation
Fire regimes and biodiversity: the effects of fragmentation of southeastern Australian eucalypt forests by urbanisation, agriculture and pine plantations 85 (1996) 261
Predation rates on artificial nests in an industrial forest landscape 86 (1996) 171
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
Fruit tree
Vegetative propagation of *Irvingia gabonensis*, a West African fruit tree 87 (1996) 185
Fuelwood
Applications of environmental accounting and the new household economics: new technical economic issues with a common theme in forestry 83 (1996) 137
Functional relationships
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Fungal endophytes
Botryosphaeria dothidea endophytic in *Eucalyptus grandis* and *Eucalyptus nitens* in South Africa 89 (1996) 189
GAM
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95
Game damage
Impact of ungulates on forest vegetation and its dependence on the silvicultural system 88 (1996) 107
Game management
Ungulates in temperate forest ecosystems: perspectives and recommendations for future research 88 (1996) 205
Gap dynamic
Growth of dipterocarp seedlings in artificial gaps: an experiment in a logged-over rainforest in South Kalimantan, Indonesia 81 (1996) 95
Gap Light Index
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Gap-model
Development and assessment of a gap-type model to predict the effects of climate change on forests based on spatial forest data 83 (1996) 217
Genecology
Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233
Gene conservation
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia 88 (1996) 283
Generalised additive model
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95

Generalised linear model
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95
Genetics
Resistance of white spruce to white pine weevil: development of a resistance index 81 (1996) 51
Genetic variability
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Genetic variation
Family variation for fall cold hardiness in two Washington populations of coastal Douglas-fir (*Pseudotsuga menziesii* var. *menziesii* (Mirb.) Franco) 80 (1996) 187
Variation in growth of *Eucalyptus camaldulensis* provenances in Thailand 87 (1996) 63
Provenance variation in rooting ability of *Calliandra calothyrsus* 87 (1996) 175
Genotype × environment interaction
Variation in growth of *Eucalyptus camaldulensis* provenances in Thailand 87 (1996) 63
Geographic information system
Changes in ecosystem carbon storage over 40 years on an old-field/forest landscape in east-central Minnesota 83 (1996) 17
Geographic variation
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Germination
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Germination ecology of twelve indigenous and eight exotic multipurpose leguminous species from Ethiopia 80 (1996) 209
G function
Long-term spatial dynamics in an old-growth deciduous forest 83 (1996) 189
Gigantochloa
"Without bamboo, the land dies": Biomass, litterfall, and soil organic matter dynamics of a Javanese bamboo talun–kebun system 87 (1996) 75
GIS
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Modelling habitat suitability for black-tailed deer (*Odocoileus hemionus columbianus*) in heterogeneous landscapes 88 (1996) 157
GLM
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95
Global warming
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
Gradsect
Biological inventory for conservation evaluation I. Design of a field survey for diurnal, terrestrial birds in southern Australia 85 (1996) 107
Grazing
Biodiversity and management of riparian vegetation in Western Australia 85 (1996) 239
Effects of season and intensity of sheep grazing on tree regeneration in a British upland woodland 88 (1996) 99
Grazing impact
Effects of resource distribution patterns on ungulate foraging behaviour: a modelling approach 88 (1996) 167
Greenhouse effect
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
Grevillea robusta
Performance of *Grevillea robusta* in plantations and on farms under varying environmental conditions in Rwanda 80 (1996) 279
Ground skidding
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59
Growth
Effects of irrigation and coppicing on above-ground growth, physiology, and fine-root dynamics of two field-grown hybrid poplar clones 80 (1996) 163
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Long-term effects of site preparation on growth in Scots pine 86 (1996) 27
Survival, growth and wood density of *Pinus kesiya* and *Pinus oocarpa* provenances at Kihanga Arboretum, Sao Hill, Tanzania 87 (1996) 1
Effects of alternative management regimes on forest stand structure, species composition, and income: a model for the Italian Dolomites 87 (1996) 107
Growth analysis
Growth analysis of Scots pine and lodgepole pine seedlings 86 (1996) 15
Growth and yield
Distance-dependent and distance-independent models of Douglas-fir and western hemlock basal area growth following silvicultural treatment 89 (1996) 1
Growth loss
The impact of pine looper moth, *Bupalus piniaria* L. (Lepidoptera; Geometridae) on the growth of Scots pine in Tentsmuir Forest, Scotland 87 (1996) 209
Growth rate
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Growth rates
Abundance and growth of rattans in Khao Chong National Park, Thailand 84 (1996) 71
Guianas
A compilation of known Guianan timber trees and the significance of their dispersal mode, seed size and taxonomic affinity to tropical rain forest management 83 (1996) 99

Habitat management
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Habitat models
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Habitat selection
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Effects of resource distribution patterns on ungulate foraging behaviour: a modelling approach 88 (1996) 167
Habitat suitability
An empirical habitat model for moose, *Alces alces*, in Algonquin Park, Ontario 81 (1996) 169
Modelling habitat suitability for black-tailed deer (*Odocoileus hemionus columbianus*) in heterogeneous landscapes 88 (1996) 157
Habitat use
Habitat use in a *Rupicapra pyrenaica pyrenaica* forest population 88 (1996) 25
Hard coated seeds
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Harvesting policies
The population modelling of fallow deer and wild boar in a Mediterranean ecosystem 88 (1996) 7
Hazard
Classification of spruce beetle hazard in Lutz and Sitka spruce stands on the Kenai Peninsula, Alaska 84 (1996) 251
Height
Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1
Growth and development of silver birch, pedunculate oak and beech as affected by deer browsing 88 (1996) 55
Height-diameter relationships
Prediction models for estimating total heights of trees from diameter at breast height measurements in Nepal's lower temperate broad-leaved forests 84 (1996) 177
Height distribution
Modeling individual tree growth for juvenile loblolly pine plantations 89 (1996) 157
Height growth
Stand structure and dynamics of young red alder as affected by planting density 82 (1996) 69
Height prediction
Prediction models for estimating total heights of trees from diameter at breast height measurements in Nepal's lower temperate broad-leaved forests 84 (1996) 177
Herbivore consumption
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Herbivore damage
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Herbivory
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231
Do large herbivores select a diet that maximizes short-term energy intake rate? 88 (1996) 149
Herb layer
Quantification of herb layer dynamics under tree canopy 88 (1996) 143
Heritability
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Variation in growth of *Eucalyptus camaldulensis* provenances in Thailand 87 (1996) 63
Heterobasidion annosum
Screening of antagonistic fungi against air-borne infection by *Heterobasidion annosum* on Norway spruce 88 (1996) 249
High Rainfall Zone
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Humid tropics
Nutrient store and export rates of *Eucalyptus urograndis* plantations in eastern Amazonia (Jari) 80 (1996) 225
Nutrient transfer to the atmosphere by burning of debris in eastern Amazonia 86 (1996) 121
Hybrid
Comparison of *Eucalyptus urophylla* provenance performance at half-rotation in Colombia and hybrid strategies with *Eucalyptus grandis* 83 (1996) 117
Three-year survival and growth of provenances of *Pinus greggii* in the tropics and subtropics 83 (1996) 123
Hydrology
Loblolly pine hydrology and productivity across the southern United States 86 (1996) 241
Hydromorphic soils
Influence of logging traffic on the hydromorphic degradation of acid forest soils developed on loessic loam in middle Belgium 87 (1996) 193
Hypholoma fasciculare
Screening of antagonistic fungi against air-borne infection by *Heterobasidion annosum* on Norway spruce 88 (1996) 249
IBA
Vegetative propagation of *Milicia excelsa* by leafy stem cuttings: effects of auxin concentration, leaf area and rooting medium 84 (1996) 39
Immobilization
Clearfelling and burning effects on nitrogen mineralization and leaching in soils of old-age *Eucalyptus regnans* forests 89 (1996) 13

Impact
The impact of pine looper moth, *Bupalus piniaria* L. (Lepidoptera; Geometridae) on the growth of Scots pine in Tentsmuir Forest, Scotland 87 (1996) 209
Impact of roads
Old and potential old forest in the Lake States, USA 86 (1996) 81
Importance sampling
Comparison of three modern methods for estimating volume of sample trees using one or two diameter measurements 83 (1996) 13
Sampling methods to estimate stem length and surface area of tropical tree species 83 (1996) 229
Generalised Importance sampling 86 (1996) 221
Improvement
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Increment
The impact of pine looper moth, *Bupalus piniaria* L. (Lepidoptera; Geometridae) on the growth of Scots pine in Tentsmuir Forest, Scotland 87 (1996) 209
Increment cores
Wood production in a natural stand of *Acacia karroo* in Zimbabwe 88 (1996) 289
Incubation
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Indicator value
Ecological behaviour of deciduous hardwood trees in Boreonemoral Sweden in relation to light and soil conditions 86 (1996) 1
Indigenous woodland
Cutting of trees by local residents in a communal area and an adjacent state forest in Zimbabwe 81 (1996) 101
Indonesia
Effect of provenance variation and singling and pruning on early growth of *Acacia mangium* Willd. plantation on *Imperata cylindrica* (L.) Beauv. dominated grassland 84 (1996) 241
"Without bamboo, the land dies": Biomass, litterfall, and soil organic matter dynamics of a Javanese bamboo talun–kebun system 87 (1996) 75
Induced defence
Induced defence reaction in the phloem of spruce (*Picea abies*) and larch (*Larix decidua*) after attack by *Ips typographus* and *Ips cembrae* 86 (1996) 51
Insect–host–site relationships
Influence of drainage and edge vegetation on levels of attack and biological performance of the white pine weevil 82 (1996) 133
Insect larval herbivores
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Institutional reform
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Intake rate maximization
Do large herbivores select a diet that maximizes short-term energy intake rate? 88 (1996) 149
Ips cembrae
Induced defence reaction in the phloem of spruce (*Picea abies*) and larch (*Larix decidua*) after attack by *Ips typographus* and *Ips cembrae* 86 (1996) 51
Ips typographus
Induced defence reaction in the phloem of spruce (*Picea abies*) and larch (*Larix decidua*) after attack by *Ips typographus* and *Ips cembrae* 86 (1996) 51
Irvingia gabonensis
Vegetative propagation of *Irvingia gabonensis*, a West African fruit tree 87 (1996) 185
Jack pine
Lower planetary boundary layer profiles of atmospheric conifer pollen above a seed orchard in northern Ontario, Canada 83 (1996) 87
Kalmia angustifolia
Effect of NPK fertilizations on *Kalmia angustifolia*: implications for forest disturbance and conifer regeneration 81 (1996) 135
Lamb
Lower planetary boundary layer profiles of atmospheric conifer pollen above a seed orchard in northern Ontario, Canada 83 (1996) 87
Landscape
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
An evaluation of forest landscape spatial pattern and wildlife community structure 89 (1996) 139
Landscape dynamics
Comparison of managed and pre-settlement landscape dynamics in forests of the Pacific Northwest, USA 85 (1996) 291
Landscape forestry
Benign neglect and active management in Tasmania's forests: a dynamic balance or ecological collapse? 85 (1996) 279
Landscape management
Conservation of biological diversity in temperate and boreal forest ecosystems 85 (1996) 1
Land tenure
How well protected are the forests of north-eastern New South Wales? — Analyses of forest environments in relation to formal protection measures, land tenure, and vulnerability to clearing 85 (1996) 311
Land-use
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Nutrient transfer to the atmosphere by burning of debris in eastern Amazonia 86 (1996) 121
Land-use analysis
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
Large herbivores
Effects of resource distribution patterns on ungulate foraging behaviour: a modelling approach 88 (1996) 167

Larix decidua
Induced defence reaction in the phloem of spruce (*Picea abies*) and larch (*Larix decidua*) after attack by *Ips typographus* and *Ips cembrae* 86 (1996) 51
Latewood
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Leaf area
Acclimation abilities of three tropical rainforest seedlings to an increase in light intensity 80 (1996) 245
Vegetative propagation of *Milicia excelsa* by leafy stem cuttings: effects of auxin concentration, leaf area and rooting medium 84 (1996) 39
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
Leaf-area index
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49
Leaf chlorophyll content
Effects of light and soil fertility on growth, leaf chlorophyll content and nutrient use efficiency of beech (*Fagus sylvatica* L.) seedlings 86 (1996) 61
Leaf distribution
Abundance, growth and allometry of red raspberry (*Rubus idaeus* L.) along a natural light gradient in a northern hardwood forest 81 (1996) 153
Leptographium
Interactions of ecologically similar saprogenic fungi with healthy and abiotically stressed conifers 86 (1996) 163
Lesser known species
A compilation of known Guianan timber trees and the significance of their dispersal mode, seed size and taxonomic affinity to tropical rain forest management 83 (1996) 99
Liberation cutting
Population dynamics of tree seedlings in a mixed dipterocarp rainforest before and after logging and crown liberation 81 (1996) 85
Light
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Effects of light and soil fertility on growth, leaf chlorophyll content and nutrient use efficiency of beech (*Fagus sylvatica* L.) seedlings 86 (1996) 61
Quantification of herb layer dynamics under tree canopy 88 (1996) 143
Lime
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253
Line intersect method
Accuracy of the line intersect method of post-logging sampling under orientation bias 84 (1996) 23
Litter
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1
Forest floor carbon pools and fluxes along a regional climate gradient in Maine, USA 84 (1996) 81
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Litter decay
Long-term effects of prescribed underburning on litter decomposition and nutrient release in ponderosa pine stands in central Oregon 81 (1996) 143
Litter decomposition
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Live-crown ratio
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49
Loblolly pine
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49
Local endemism
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Lodgepole pine
Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47
Growth analysis of Scots pine and lodgepole pine seedlings 86 (1996) 15
Log
Old-growth white spruce and balsam poplar forests of the Peace River Lowlands, Wood Buffalo National Park, Canada: development, structure, and diversity 81 (1996) 179
Logged-over forests
Growth of dipterocarp seedlings in artificial gaps: an experiment in a logged-over rainforest in South Kalimantan, Indonesia 81 (1996) 95
Logging damage
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59
Logistic function
A crown ratio model for Austrian forests 84 (1996) 49
Logistic regression
Incidence and impact of *Polygraphus rufipennis* (Coleoptera: Scolytidae) in Newfoundland 89 (1996) 173
Logit regression models
Biological inventory for conservation evaluation III. Relationships between birds, vegetation and environmental attributes in southern Australia 85 (1996) 197
Long-term site productivity
Long-term effects of site preparation on growth in Scots pine 86 (1996) 27
Low impact logging
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59

Magnesium
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253
Mahogany
Simulated financial returns and selected environmental impacts from four alternative silvicultural prescriptions applied in the neotropics: a case study of the Chimanes Forest, Bolivia 89 (1996) 43
Maine
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Managed forests
Comparison of managed and pre-settlement landscape dynamics in forests of the Pacific Northwest, USA 85 (1996) 291
Management
Anthropogenic pressure on tree structure and biomass in the temperate forest of Mamlay watershed in Sikkim 81 (1996) 113
Conservation in temperate forests: what do we need to know and do? 85 (1996) 9
Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89
Progress in predictive management of deer populations in British woodlands 88 (1996) 187
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259
Mangrove
Microtopography, soil hardness and survival of mangrove (*Rhizophora apiculata* BL.) seedlings planted in an abandoned tin-mining area 81 (1996) 243
Mapping
Characterisation and delineation of the eucalypt old-growth forest estate in Australia: a review 83 (1996) 149
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Marginal parenchyma
Wood production in a natural stand of *Acacia karroo* in Zimbabwe 88 (1996) 289
Mark–recapture
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Marsupials
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Martes americana
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Mathematical models
The population modelling of fallow deer and wild boar in a Mediterranean ecosystem 88 (1996) 7
Matrix
Effects of alternative management regimes on forest stand structure, species composition, and income: a model for the Italian Dolomites 87 (1996) 107
Maximum bulk modulus of tissue elasticity (E_{max})
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Mechanized logging
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59
Mediterranean vegetation
Land occupation patterns and vegetation structure in the anthropogenic savannas (espinales) of central Chile 86 (1996) 129
Meranti
Growth of dipterocarp seedlings in artificial gaps: an experiment in a logged-over rainforest in South Kalimantan, Indonesia 81 (1996) 95
Method of moments estimation
Stand table modelling through the Weibull distribution and usage of skewness information 81 (1996) 19
Microbial biomass
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Microenvironment
Vegetation responses along edge-to-interior gradients in a high altitude tropical forest in peninsular India 87 (1996) 51
Microhabitats
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Microtopography
Microtopography, soil hardness and survival of mangrove (*Rhizophora apiculata* BL.) seedlings planted in an abandoned tin-mining area 81 (1996) 243
Middle hills of Nepal
Prediction models for estimating total heights of trees from diameter at breast height measurements in Nepal's lower temperate broad-leaved forests 84 (1996) 177
Migration
Sixty years of management and natural disturbance in a New England forested landscape 81 (1996) 63
Mineralization
Fine root decomposition and nutrient mineralization patterns in a subtropical humid forest following tree cutting 86 (1996) 141
Mineral-N
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Mineral soil
Aboveground biomass and nutrient accumulation in an age sequence of paper birch (*Betula papyrifera*) in the Interior Cedar Hemlock zone, British Columbia 83 (1996) 27
Minirhizotron
Effects of irrigation and coppicing on above-ground growth, physiology, and fine-root dynamics of two field-grown hybrid poplar clones 80 (1996) 163

Minor disturbance
Stand structure and development after gypsy moth defoliation in the Appalachian Plateau 89 (1996) 79
Miombo woodland
Cutting of trees by local residents in a communal area and an adjacent state forest in Zimbabwe 81 (1996) 101
Deforestation and regrowth phenology in miombo woodland – assessed by Landsat Multispectral Scanner System data 84 (1996) 263
Mixed models
Biological inventory for conservation evaluation III. Relationships between birds, vegetation and environmental attributes in southern Australia 85 (1996) 197
Mixed mountain forests
Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps 88 (1996) 43
Mixed-species
A crown ratio model for Austrian forests 84 (1996) 49
Mixed-species stand
A basal area increment model for individual trees growing in even- and uneven-aged forest stands in Austria 80 (1996) 57
Model
Loblolly pine hydrology and productivity across the southern United States 86 (1996) 241
Model calculation
Model computations on wind flow and turning moment by wind for Scots pines along the margins of clear-cut areas 83 (1996) 203
Modelling
Modelling habitat suitability for black-tailed deer (*Odocoileus hemionus columbianus*) in heterogeneous landscapes 88 (1996) 157
Progress in predictive management of deer populations in British woodlands 88 (1996) 187
Moisture
Forest floor carbon pools and fluxes along a regional climate gradient in Maine, USA 84 (1996) 81
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Monitoring
Binoculars and satellites: developing a conservation framework for boreal forest wildlife at varying scales 85 (1996) 53
Moose
An empirical habitat model for moose, *Alces alces*, in Algonquin Park, Ontario 81 (1996) 169
Mortality
Stand structure and dynamics of young red alder as affected by planting density 82 (1996) 69
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Mosaic-cycle
Biodiversity in natural versus managed forest in Denmark 85 (1996) 47
Mountain forests
Impact of wild ungulates on forest regeneration and tree composition of mountain forests in the Western Italian Alps 88 (1996) 93
Mt. Ascutney
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Mule deer
The effects of cattle grazing on optimal foraging in mule deer (*Odocoileus hemionus*) 88 (1996) 131
Multi-criteria
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Multiple use
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
^{15}N
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Natural regeneration
Effects of light and soil fertility on growth, leaf chlorophyll content and nutrient use efficiency of beech (*Fagus sylvatica* L.) seedlings 86 (1996) 61
Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps 88 (1996) 43
Needle
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1
Needle area
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193
Needle litter mass
Needle litter responses of peatland tamarack and black spruce to fertilization of minerotrophic peatland sites 87 (1996) 257
Nelder plots
Stand structure and dynamics of young red alder as affected by planting density 82 (1996) 69
Neotropic
Early species selection for tropical reforestation: a consideration of stability 81 (1996) 161
Nest success
Predation rates on artificial nests in an industrial forest landscape 86 (1996) 171
Net mineralization
Forest ecosystem response to four years of chronic nitrate and sulfate additions at Bear Brooks Watershed, Maine, USA 84 (1996) 29
Net nitrification
Forest ecosystem response to four years of chronic nitrate and sulfate additions at Bear Brooks Watershed, Maine, USA 84 (1996) 29
Net present value
Financial returns from sustainable forest management and selected agricultural land-use options in Costa Rica 81 (1996) 35
Net primary productivity
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181

Loblolly pine hydrology and productivity across the southern United States 86 (1996) 241
New South Wales
How well protected are the forests of north-eastern New South Wales? — Analyses of forest environments in relation to formal protection measures, land tenure, and vulnerability to clearing 85 (1996) 311
Nitrate
Clearfelling and burning effects on nitrogen mineralization and leaching in soils of old-age *Eucalyptus regnans* forests 89 (1996) 13
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Nitrate accumulation
Evidence for nitrogen saturation in the San Bernardino Mountains in southern California 82 (1996) 211
Nitrification
Variability of nitrification potentials in patches of undergrowth vegetation in primary Scots pine stands 86 (1996) 97
Nitrogen
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Long-term effects of prescribed underburning on litter decomposition and nutrient release in ponderosa pine stands in central Oregon 81 (1996) 143
The response of growth and foliar nutrients to fertilizers in young *Eucalyptus globulus* (Labill.) plantations in Gippsland, southeastern Australia 82 (1996) 87
Decomposition and nutrient dynamics of hardwood leaf litter in the Fernow Whole-Watershed Acidification Experiment 83 (1996) 61
Long-term effects of site preparation on growth in Scots pine 86 (1996) 27
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Nitrogen additions
Forest ecosystem response to four years of chronic nitrate and sulfate additions at Bear Brooks Watershed, Maine, USA 84 (1996) 29
Nitrogen deposition
Forest ecosystem response to four years of chronic nitrate and sulfate additions at Bear Brooks Watershed, Maine, USA 84 (1996) 29
Nitrogen fixation
Nodulated and non-nodulated *Prosopis chilensis* (Mol) St. seedlings: economy of carbon and nitrogen 89 (1996) 25
Nitrogen fixing tree
Provenance variation in rooting ability of *Calliandra calothyrsus* 87 (1996) 175
Nitrogen trace gases
Evidence for nitrogen saturation in the San Bernardino Mountains in southern California 82 (1996) 211
N-mineralization
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Nodulation
Mycorrhizal associations of tropical legume trees in Sierra Leone, West Africa 89 (1996) 89
Non-commercial timber
Cutting of trees by local residents in a communal area and an adjacent state forest in Zimbabwe 81 (1996) 101
Non-timber forest product
Production and harvest of fibers from *Aphandra natalia* (Palmae) in Ecuador 80 (1996) 155
Palmito sustainability and economics in Brazil's Atlantic coastal forest 80 (1996) 257
Non-timber forest products
Applications of environmental accounting and the new household economics: new technical economic issues with a common theme in forestry 83 (1996) 137
The economic value of managing the açaí palm (*Euterpe oleracea* Mart.) in the floodplains of the Amazon estuary, Pará, Brazil 87 (1996) 163
Norway spruce
Influence of drainage and edge vegetation on levels of attack and biological performance of the white pine weevil 82 (1996) 133
Nothofagus dombeyi
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
NPK fertilization
Effect of NPK fertilizations on *Kalmia angustifolia*: implications for forest disturbance and conifer regeneration 81 (1996) 135
NPP
Loblolly pine hydrology and productivity across the southern United States 86 (1996) 241
N saturation
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Nutrient
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1
Nutrient concentration
Aboveground biomass and nutrient accumulation in an age sequence of paper birch (*Betula papyrifera*) in the Interior Cedar Hemlock zone, British Columbia 83 (1996) 27
Nutrient concentration and content
Needle litter responses of peatland tamarack and black spruce to fertilization of minerotrophic peatland sites 87 (1996) 257
Nutrient content
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Nutrient cycling
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Ecology of *Bambusa arudinacea* (Retz.) Willd. growing in teak plantations of Kerala, India 87 (1996) 149
Nutrient cycling in a Chinese-fir (*Cunninghamia lanceolata*) stand on a poor site in Yishan, Guangxi 89 (1996) 115

Nutrient distribution
Nutrient cycling in a Chinese-fir (*Cunninghamia lanceolata*) stand on a poor site in Yishan, Guangxi 89 (1996) 115
Nutrient dynamics
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Nutrient export
Nutrient store and export rates of *Eucalyptus urograndis* plantations in eastern Amazonia (Jari) 80 (1996) 225
Nutrient fluxes
Nutrient dynamics of chestnut tree (*Castanea sativa* Mill.) coppice stands 86 (1996) 259
Nutrient imbalance
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Nutrient ratio
Evidence for nitrogen saturation in the San Bernardino Mountains in southern California 82 (1996) 211
Decomposition and nutrient dynamics of hardwood leaf litter in the Fernow Whole-Watershed Acidification Experiment 83 (1996) 61
Nutrient release
Nutrient transfer to the atmosphere by burning of debris in eastern Amazonia 86 (1996) 121
Nutrients
Long-term effects of prescribed underburning on litter decomposition and nutrient release in ponderosa pine stands in central Oregon 81 (1996) 143
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Base cation fertilization and liming effects on nutrition and growth of Vermont sugar maple stands 84 (1996) 123
Nutrient use efficiency
Effects of light and soil fertility on growth, leaf chlorophyll content and nutrient use efficiency of beech (*Fagus sylvatica* L.) seedlings 86 (1996) 61
Nutritive value
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65
Oak forest
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259
Oak regeneration
Stand structure and development after gypsy moth defoliation in the Appalachian Plateau 89 (1996) 79
Odocoileus hemionus
The effects of cattle grazing on optimal foraging in mule deer (*Odocoileus hemionus*) 88 (1996) 131
Odocoileus hemionus columbianus
The effects of cattle grazing on optimal foraging in mule dee (*Odocoileus hemionus*) 88 (1996) 131
Modelling habitat suitability for black-tailed deer (*Odocoileus hemionus columbianus*) in heterogeneous landscapes 88 (1996) 157
Old-growth
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89
Old-growth estate
Characterisation and delineation of the eucalypt old-growth forest estate in Australia: a review 83 (1996) 149
Open canopy
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181
Open *Eucalyptus* forest
Biological inventory for conservation evaluation I. Design of a field survey for diurnal, terrestrial birds in southern Australia 85 (1996) 107
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Biological inventory for conservation evaluation III. Relationships between birds, vegetation and environmental attributes in southern Australia 85 (1996) 197
Ophiostomatoid
Interactions of ecologically similar saprogenic fungi with healthy and abiotically stressed conifers 86 (1996) 163
Optimal foraging
The effects of cattle grazing on optimal foraging in mule deer (*Odocoileus hemionus*) 88 (1996) 131
Do large herbivores select a diet that maximizes short-term energy intake rate? 88 (1996) 149
Organic matter
Carbon and nitrogen in coniferous forest soils after clear-felling and harvests of different intensity 82 (1996) 19
Decomposition and nutrient dynamics of hardwood leaf litter in the Fernow Whole-Watershed Acidification Experiment 83 (1996) 61
Organ ratio
Acclimation abilities of three tropical rainforest seedlings to an increase in light intensity 80 (1996) 245
Osmotic potential at full turgor ($\Psi\pi_{100}$)
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Osmotic potential at turgor loss point ($\Psi\pi_0$)
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Oviposition
Spatial distribution patterns of pine sawflies (Hymenoptera: Diprionidae) in Arizona, US and Sichuan, PR of China 86 (1996) 151
Ownership
The paradox of forest conservation in South Africa 85 (1996) 35
Old and potential old forest in the Lake States, USA 86 (1996) 81

Palm
Palmito sustainability and economics in Brazil's Atlantic coastal forest 80 (1996) 257
Palms
The economic value of managing the açaí palm (*Euterpe oleracea* Mart.) in the floodplains of the Amazon estuary, Pará, Brazil 87 (1996) 163
Paragominas
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59
Partial cutting
Abundance, growth and allometry of red raspberry (*Rubus idaeus* L.) along a natural light gradient in a northern hardwood forest 81 (1996) 153
Partitioning
Nodulated and non-nodulated *Prosopis chilensis* (Mol) St. seedlings: economy of carbon and nitrogen 89 (1996) 25
Pasture
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
Patch use
Effects of resource distribution patterns on ungulate foraging behaviour: a modelling approach 88 (1996) 167
Pathology
Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233
Peak standing crop
Quantification of herb layer dynamics under tree canopy 88 (1996) 143
Peat
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Peatland
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1
Permeability
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Phenolics
Modelling distributions of arboreal and ground-dwelling mammals in relation to climate, nutrients, plant chemical defences and vegetation structure in the eucalypt forests of southeastern Australia 85 (1996) 163
Phosphate
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253
Phosphorus
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Long-term effects of prescribed underburning on litter decomposition and nutrient release in ponderosa pine stands in central Oregon 81 (1996) 143
The response of growth and foliar nutrients to fertilizers in young *Eucalyptus globulus* (Labill.) plantations in Gippsland, southeastern Australia 82 (1996) 87
Photosynthesis
Effects of irrigation and coppicing on above-ground growth, physiology, and fine-root dynamics of two field-grown hybrid poplar clones 80 (1996) 163
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197
Photosynthetically active radiation
A gradient of seedling growth from the centre of a tropical rain forest canopy gap 82 (1996) 239
Phylogenetic relicts
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Phytotoxicity
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227
Picea abies
Influence of drainage and edge vegetation on levels of attack and biological performance of the white pine weevil 82 (1996) 133
Vitality and bark beetle resistance of fertilized Norway spruce 84 (1996) 149
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Induced defence reaction in the phloem of spruce (*Picea abies*) and larch (*Larix decidua*) after attack by *Ips typographus* and *Ips cembrae* 86 (1996) 51
Fraying damages in the subalpine forest of Paneveggio (Trento, Italy): a dendroecological approach 88 (1996) 81
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis 88 (1996) 237
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Picea glauca
Use of synoptic variables in predicting white spruce site index 80 (1996) 95
Resistance of white spruce to white pine weevil: development of a resistance index 81 (1996) 51
Picea rubens
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Picea sitchensis
Autumn frost damage: clonal variation in Sitka spruce 80 (1996) 107
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253

Picoides borealis
Arthropod biomass in winter and the age of longleaf pines 82 (1996) 115
Pinaceae
Variation in stable carbon isotope discrimination among and within exotic conifer species grown in eastern Nebraska, USA 83 (1996) 181
Pine forest
Preliminary quantitative estimation of wood decomposition by fungi in a Russian temperate pine forest 81 (1996) 249
Pine plantations
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia 88 (1996) 283
Pinus banksiana
Lower planetary boundary layer profiles of atmospheric conifer pollen above a seed orchard in northern Ontario, Canada 83 (1996) 87
Pinus chiapensis
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia 88 (1996) 283
Pinus echinata Mill.
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Pinus kesiya
Survival, growth and wood density of *Pinus kesiya* and *Pinus oocarpa* provenances at Kihanga Arboretum, Sao Hill, Tanzania 87 (1996) 1
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India 88 (1996) 273
Pinus oocarpa
Survival, growth and wood density of *Pinus kesiya* and *Pinus oocarpa* provenances at Kihanga Arboretum, Sao Hill, Tanzania 87 (1996) 1
Pinus palustris
Arthropod biomass in winter and the age of longleaf pines 82 (1996) 115
Pinus patula
The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215
Geographic variation in leaf, cone and seed morphology of *Pinus greggii* in native forests 82 (1996) 145
Pinus radiata
Monterrey pine (*Pinus radiata* D. Don) suitability for the pine shoot beetle (*Tomicus piniperda* L.) (Coleoptera: Scolytidae) 86 (1996) 73
Pinus resinosa
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Pinus sylvestris
Long-term effects of site preparation on growth in Scots pine 86 (1996) 27
Monterrey pine (*Pinus radiata* D. Don) suitability for the pine shoot beetle (*Tomicus piniperda* L.) (Coleoptera: Scolytidae) 86 (1996) 73
The impact of pine looper moth, *Bupalus piniaria* L. (Lepidoptera; Geometridae) on the growth of Scots pine in Tentsmuir Forest, Scotland 87 (1996) 209
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227
Pinus taeda
Loblolly pine hydrology and productivity across the southern United States 86 (1996) 241
Modeling individual tree growth for juvenile loblolly pine plantations 89 (1996) 157
Pinus taeda L.
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Pioneer species
Population dynamics of tree seedlings in a mixed dipterocarp rainforest before and after logging and crown liberation 81 (1996) 85
Pipe-model
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193
Pissodes strobi
Resistance of white spruce to white pine weevil: development of a resistance index 81 (1996) 51
Influence of drainage and edge vegetation on levels of attack and biological performance of the white pine weevil 82 (1996) 133
Planning
Potential role of deer (Cervidae) as ecological indicators of forest management 88 (1996) 199
Plantation
Growth potential of twelve *Acacia* species on acid soils in Hawaii 80 (1996) 175
The effects of shade on the plant communities of rides in plantation woodland and implications for butterfly conservation 80 (1996) 197
The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215
Plantation forestry
Factors influencing decline in soil pH in Hawaiian *Eucalyptus* and *Albizia* plantations 80 (1996) 47
Plantations
Growth at age 30 months of *Acacia* and *Eucalyptus* species planted in *Imperata* grasslands in Kalimantan Selatan, Indonesia 82 (1996) 185
Predation rates on artificial nests in an industrial forest landscape 86 (1996) 171
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179
Plant biomass
Changes in ecosystem carbon storage over 40 years on an old-field/forest landscape in east-central Minnesota 83 (1996) 17
Planting
Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47

Planting experiment
Microtopography, soil hardness and survival of mangrove (*Rhizophora apiculata* BL.) seedlings planted in an abandoned tin-mining area 81 (1996) 243
Plant time
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197
PnET-IIS
Loblolly pine hydrology and productivity across the southern United States 86 (1996) 241
Podzolic soils
Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands 88 (1996) 71
Policy
Effects of alternative management regimes on forest stand structure, species composition, and income: a model for the Italian Dolomites 87 (1996) 107
Policy processes
Conservation of biological diversity in temperate and boreal forest ecosystems 85 (1996) 1
Polynomials
Taper equations for *Pinus taeda* plantations in Southern Brazil 83 (1996) 39
Ponderosa pine
Spatial distribution patterns of pine sawflies (Hymenoptera: Diprionidae) in Arizona, US and Sichuan, PR of China 86 (1996) 151
Poplar
Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233
Population dynamics
The population modelling of fallow deer and wild boar in a Mediterranean ecosystem 88 (1996) 7
Population lags
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Population structures
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
Potassium
Base cation fertilization and liming effects on nutrition and growth of Vermont sugar maple stands 84 (1996) 123
Effects of earthworms on cation and phosphate mobilisation in limed peat soils under *Picea sitchensis* 86 (1996) 253
Potential biodiversity
Impact of forest management history on the state of forests in relation to natural forest succession Comparative study, North Karelia, Finland vs. Republic of Karelia, Russian Federation 83 (1996) 71
Potential natural vegetation (PNV)
Long-term adaptation potential of Central European mountain forests to climate change: a GIS-assisted sensitivity assessment 80 (1996) 133
Prays fraxinella
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231
Precautionary principle
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219
Predictive
Progress in predictive management of deer populations in British woodlands 88 (1996) 187
Prescribed fire
Long-term effects of prescribed underburning on litter decomposition and nutrient release in ponderosa pine stands in central Oregon 81 (1996) 143
Pre-settlement
Comparison of managed and pre-settlement landscape dynamics in forests of the Pacific Northwest, USA 85 (1996) 291
Prey availability
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Prey base
Arthropod biomass in winter and the age of longleaf pines 82 (1996) 115
Principal component analysis
Resistance of white spruce to white pine weevil: development of a resistance index 81 (1996) 51
Priorities for management
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Priority setting
Binoculars and satellites: developing a conservation framework for boreal forest wildlife at varying scales 85 (1996) 53
Production function
Economic comparison of forest management methods 82 (1996) 159
Productivity
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49
The response of growth and foliar nutrients to fertilizers in young *Eucalyptus globulus* (Labill.) plantations in Gippsland, southeastern Australia 82 (1996) 87
The effects of fertilizers on early growth and foliar nutrient concentrations of three plantation eucalypts on high quality sites in Gippsland, southeastern Australia 89 (1996) 213
Products of wood decomposition
Preliminary quantitative estimation of wood decomposition by fungi in a Russian temperate pine forest 81 (1996) 249
Progeny–provenance trial
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Prognosis model
A basal area increment model for individual trees growing in even- and uneven-aged forest stands in Austria 80 (1996) 57

Projected leaf area
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Propagation medium
Vegetative propagation of *Milicia excelsa* by leafy stem cuttings: effects of auxin concentration, leaf area and rooting medium 84 (1996) 39
Prosopis
Effect of site preparation techniques on *Prosopis juliflora* in an alkali soil 80 (1996) 267
Prosopis sp.
Nodulated and non-nodulated *Prosopis chilensis* (Mol) St. seedlings: economy of carbon and nitrogen 89 (1996) 25
Protected area
Cutting of trees by local residents in a communal area and an adjacent state forest in Zimbabwe 81 (1996) 101
Protected areas
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Protection measures
How well protected are the forests of north-eastern New South Wales? — Analyses of forest environments in relation to formal protection measures, land tenure, and vulnerability to clearing 85 (1996) 311
Provenance
Survival, growth and wood density of *Pinus kesiya* and *Pinus oocarpa* provenances at Kihanga Arboretum, Sao Hill, Tanzania 87 (1996) 1
Provenance test
Variation in stable carbon isotope discrimination among and within exotic conifer species grown in eastern Nebraska, USA 83 (1996) 181
Provenance variation
Growth of 16 provenances of *Eucalyptus microtheca* in a regularly irrigated plantation in eastern Kenya 82 (1996) 11
Effect of provenance variation and singling and pruning on early growth of *Acacia mangium* Willd. plantation on *Imperata cylindrica* (L.) Beauv. dominated grassland 84 (1996) 241
Pseudotsuga menziesii
Distance-dependent and distance-independent models of Douglas-fir and western hemlock basal area growth following silvicultural treatment 89 (1996) 1
Psosopis flexuosa
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Pteridium aquilinum
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227
Pyrenean chamois
Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees 88 (1996) 15
Quercus coccinea (Muenchh.)
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Quercus petraea
Silvicultural planning under conditions of environmental change: Evaluation of options in a dieback in Austrian oak forests 83 (1996) 133
Quercus rubra
Canopy cover effects on mass loss, and nitrogen and phosphorus dynamics from decomposing litter in oak and pine stands in northern Lower Michigan 80 (1996) 13
Quercus rubra (L.)
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Quercus spp.
Effects of long-term annual and periodic burning on tree survival and growth in a Missouri Ozark oak-hickory forest 82 (1996) 1
Quercus suber L.
Annual cork-ring width variability of *Quercus suber* L. in relation to temperature and precipitation (Extremadura, southwestern Spain) 86 (1996) 113
Quercus velutina (Lam.)
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
Radiation
Light reduction by regional haze and its effect on simulated leaf photosynthesis in a tropical forest of Malaysia 89 (1996) 205
Rainforest
Population dynamics of tree seedlings in a mixed dipterocarp rainforest before and after logging and crown liberation 81 (1996) 85
Changes following 60 years of selective timber harvesting in the Budongo Forest Reserve, Uganda 89 (1996) 101
Rainforest management
Growth of dipterocarp seedlings in artificial gaps: an experiment in a logged-over rainforest in South Kalimantan, Indonesia 81 (1996) 95
Randomized branch sampling
Sampling methods to estimate stem length and surface area of tropical tree species 83 (1996) 229
Rattans
Abundance and growth of rattans in Khao Chong National Park, Thailand 84 (1996) 71
Reafforestation of arid lands
Genetic variability in *Prosopis flexuosa* D.C., a native tree of the Monte phytogeographic province, Argentina 87 (1996) 41
Red deer
Feeding behaviour of red deer (*Cervus elaphus*) on Sitka spruce (*Picea sitchensis*): the role of carbon-nutrient balance 88 (1996) 121
Red spruce
Nitrogen saturation in a high elevation New England spruce–fir stand 84 (1996) 109
Reforestation
Growth potential of twelve *Acacia* species on acid soils in Hawaii 80 (1996) 175

Effect of provenance variation and singling and pruning on early growth of *Acacia mangium* Willd. plantation on *Imperata cylindrica* (L.) Beauv. dominated grassland 84 (1996) 241

Regeneration

Population dynamics of tree seedlings in a mixed dipterocarp rainforest before and after logging and crown liberation 81 (1996) 85

Anthropogenic pressure on tree structure and biomass in the temperate forest of Mamlay watershed in Sikkim 81 (1996) 113

The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215

Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187

Land occupation patterns and vegetation structure in the anthropogenic savannas (espinales) of central Chile 86 (1996) 129

Vegetation responses along edge-to-interior gradients in a high altitude tropical forest in peninsular India 87 (1996) 51

Growth and development of silver birch, pedunculate oak and beech as affected by deer browsing 88 (1996) 55

Effects of season and intensity of sheep grazing on tree regeneration in a British upland woodland 88 (1996) 99

Light reduction by regional haze and its effect on simulated leaf photosynthesis in a tropical forest of Malaysia 89 (1996) 205

Regeneration failure

Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment 88 (1996) 227

Regression

Ecological behaviour of deciduous hardwood trees in Boreo-nemoral Sweden in relation to light and soil conditions 86 (1996) 1

Regression analysis

Estimating diameter at breast height and basal diameter of trees from stump measurements in Nepal's lower temperate broad-leaved forests 81 (1996) 75

Regressions

Root system morphology and development of seedling and juvenile *Juniperus occidentalis* 86 (1996) 229

Regrowth

Deforestation and regrowth phenology in miombo woodland – assessed by Landsat Multispectral Scanner System data 84 (1996) 263

Rehabilitation

Growth of dipterocarp seedlings in artificial gaps: an experiment in a logged-over rainforest in South Kalimantan, Indonesia 81 (1996) 95

Microtopography, soil hardness and survival of mangrove (*Rhizophora apiculata* BL.) seedlings planted in an abandoned tin-mining area 81 (1996) 243

Relative density

Linkages between silviculture and ecology: an analysis of density management diagrams 86 (1996) 205

Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13

Relative growth rate

Growth analysis of Scots pine and lodgepole pine seedlings 86 (1996) 15

Quantification of herb layer dynamics under tree canopy 88 (1996) 143

Relative water content at turgor loss point (CHR^0)

Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219

Remote sensing

Deforestation and regrowth phenology in miombo woodland – assessed by Landsat Multispectral Scanner System data 84 (1996) 263

Research strategy

Assessment of tolerable browsing by Eiberle's method: Limitations and future prospects 88 (1996) 87

Resin

Vitality and bark beetle resistance of fertilized Norway spruce 84 (1996) 149

Resource allocation

Vitality and bark beetle resistance of fertilized Norway spruce 84 (1996) 149

Resource depletion

Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1

Restoration

The role of exotic conifer plantations in rehabilitating degraded tropical forest lands: A case study from the Kibale Forest in Uganda 81 (1996) 215

Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233

Retranslocation

Needle litter responses of peatland tamarack and black spruce to fertilization of minerotrophic peatland sites 87 (1996) 257

Rhizosphere

Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197

Riparian

Old-growth white spruce and balsam poplar forests of the Peace River Lowlands, Wood Buffalo National Park, Canada: development, structure, and diversity 81 (1996) 179

Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89

Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233

Ripley's *L* function
Long-term spatial dynamics in an old-growth deciduous forest 83 (1996) 189
Riverine
Biodiversity and management of riparian vegetation in Western Australia 85 (1996) 239
Roe and red deer
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65
Root biomass
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
Root carbon
Root system characteristics with agroforestry relevance of nine leguminous tree species and a spontaneous fallow in a semi-deciduous rainforest area of West Africa 84 (1996) 199
Root competition
Effects of root competition and canopy openness on survival and growth of tree seedlings in a tropical seasonal dry forest 82 (1996) 33
Root distribution
Root system characteristics with agroforestry relevance of nine leguminous tree species and a spontaneous fallow in a semi-deciduous rainforest area of West Africa 84 (1996) 199
Root system morphology and development of seedling and juvenile *Juniperus occidentalis* 86 (1996) 229
Root dormancy
Autumn frost damage: clonal variation in Sitka spruce 80 (1996) 107
Rooting
Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands 88 (1996) 71
Rooting cuttings
Provenance variation in rooting ability of *Calliandra calothyrsus* 87 (1996) 175
Rooting physiology
Vegetative propagation of *Milicia excelsa* by leafy stem cuttings: effects of auxin concentration, leaf area and rooting medium 84 (1996) 39
Root length
Root system morphology and development of seedling and juvenile *Juniperus occidentalis* 86 (1996) 229
Root nitrogen
Root system characteristics with agroforestry relevance of nine leguminous tree species and a spontaneous fallow in a semi-deciduous rainforest area of West Africa 84 (1996) 199
Root/shoot biomass
Root system morphology and development of seedling and juvenile *Juniperus occidentalis* 86 (1996) 229
Root shoot ratio
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
Rotation
Comparison of managed and pre-settlement landscape dynamics in forests of the Pacific Northwest, USA 85 (1996) 291
Rupicapra pyrenaica pyrenaica
Habitat use in a *Rupicapra pyrenaica pyrenaica* forest population 88 (1996) 25
Rutted forest soils
Influence of logging traffic on the hydromorphic degradation of acid forest soils developed on loessic loam in middle Belgium 87 (1996) 193
Salal
Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1
Sampling
Accuracy of the line intersect method of post-logging sampling under orientation bias 84 (1996) 23
Sampling design
Comparing sampling strategies in forest monitoring programs 82 (1996) 231
Sand pine scrub
A comparison of relative abundance and biomass of ground-dwelling arthropods under different forest management practices 89 (1996) 31
Sapling abundance
Growth and development of silver birch, pedunculate oak and beech as affected by deer browsing 88 (1996) 55
Sapwood
Allometric relationships on biomass and needle area of Douglas-fir 86 (1996) 193
Saturated hydraulic conductivity
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of southeastern Australia 84 (1996) 159
Savanna
A qualitative successional model to assist in the management of Brazilian cerrados 87 (1996) 127
Scale
Binoculars and satellites: developing a conservation framework for boreal forest wildlife at varying scales 85 (1996) 53
Scar
Fraying damages in the subalpine forest of Paneveggio (Trento, Italy): a dendroecological approach 88 (1996) 81
Scarification
Germination ecology of twelve indigenous and eight exotic multipurpose leguminous species from Ethiopia 80 (1996) 209
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Long-term effects of site preparation on growth in Scots pine 86 (1996) 27
Schima–Castanopsis forest
Estimating diameter at breast height and basal diameter of trees from stump measurements in Nepal's lower temperate broad-leaved forests 81 (1996) 75
Schima-Castanopsis forests
Prediction models for estimating total heights of trees from diameter at breast height measurements in Nepal's lower temperate broad-leaved forests 84 (1996) 177
Scolytid
Incidence and impact of *Polygraphus rufipennis* (Coleoptera: Scolytidae) in Newfoundland 89 (1996) 173
Scots pine
Variation in the amount and quality of litterfall in a *Pinus sylvestris* L. stand growing on a bog 80 (1996) 1

Needle, crown, stem, and root phytomass of *Pinus sylvestris* stands in Russia 82 (1996) 59
Growth analysis of Scots pine and lodgepole pine seedlings 86 (1996) 15
Variability of nitrification potentials in patches of undergrowth vegetation in primary Scots pine stands 86 (1996) 97
Effect of intertree competition on biomass production of *Pinus sylvestris* (L.) half-sib families 86 (1996) 105
Moose browsing in young Scots pine stands in relation to forest management 88 (1996) 179
Screening trial
Early species selection for tropical reforestation: a consideration of stability 81 (1996) 161
Seasonality
Effects of root competition and canopy openness on survival and growth of tree seedlings in a tropical seasonal dry forest 82 (1996) 33
Seasonal migration
Habitat use in a *Rupicapra pyrenaica pyrenaica* forest population 88 (1996) 25
Secondary succession
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
Seedling
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Seedling establishment
Effects of root competition and canopy openness on survival and growth of tree seedlings in a tropical seasonal dry forest 82 (1996) 33
Seedling growth
Germination and seedling growth of *Quercus* (section *Erythrobalanus*) across openings in a mixed-deciduous forest of southern New England, USA 80 (1996) 81
A gradient of seedling growth from the centre of a tropical rain forest canopy gap 82 (1996) 239
Seedling mortality
Microtopography, soil hardness and survival of mangrove (*Rhizophora apiculata* BL.) seedlings planted in an abandoned tin-mining area 81 (1996) 243
Seed size
A compilation of known Guianan timber trees and the significance of their dispersal mode, seed size and taxonomic affinity to tropical rain forest management 83 (1996) 99
Seed storage
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Segmented model
Taper equations for *Pinus taeda* plantations in Southern Brazil 83 (1996) 39
Selection system
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Selective logging
Changes following 60 years of selective timber harvesting in the Budongo Forest Reserve, Uganda 89 (1996) 101
Self-thinning
Effects of long-term annual and periodic burning on tree survival and growth in a Missouri Ozark oak-hickory forest 82 (1996) 1
Linkages between silviculture and ecology: an analysis of density management diagrams 86 (1996) 205
Sheep
Effects of season and intensity of sheep grazing on tree regeneration in a British upland woodland 88 (1996) 99
Shifting cultivation
Amazonian deforestation and global warming: carbon stocks in vegetation replacing Brazil's Amazon forest 80 (1996) 21
Carbon uptake by secondary forests in Brazilian Amazonia 80 (1996) 35
"Without bamboo, the land dies": Biomass, litterfall, and soil organic matter dynamics of a Javanese bamboo talun–kebun system 87 (1996) 75
Shola forest
Vegetation responses along edge-to-interior gradients in a high altitude tropical forest in peninsular India 87 (1996) 51
Short-rotation intensive-culture
Genetic variation and productivity of *Populus trichocarpa* and its hybrids. IX. Phenology and Melampsora rust incidence of native black cottonwood clones from four river valleys in Washington 87 (1996) 233
Silviculture
Growth potential of twelve *Acacia* species on acid soils in Hawaii 80 (1996) 175
Silvicultural planning under conditions of environmental change: Evaluation of options in a dieback in Austrian oak forests 83 (1996) 133
Response of bilberry (*Vaccinium myrtillus*) to clear-cutting and single-tree selection harvests in uneven-aged boreal *Picea abies* forests 86 (1996) 39
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89
Effects of clear-cutting and single-tree selection harvests on herbivorous insect larvae feeding on bilberry (*Vaccinium myrtillus*) in uneven-aged boreal *Picea abies* forests 87 (1996) 139
Simulation
Development and assessment of a gap-type model to predict the effects of climate change on forests based on spatial forest data 83 (1996) 217
Simulation modeling
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27

Site classification
Use of synoptic variables in predicting white spruce site index 80 (1996) 95
Site interaction
Early species selection for tropical reforestation: a consideration of stability 81 (1996) 161
Site preparation
Effect of site preparation techniques on *Prosopis juliflora* in an alkali soil 80 (1996) 267
Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47
Site quality
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Sitka spruce
Feeding behaviour of red deer (*Cervus elaphus*) on Sitka spruce (*Picea sitchensis*): the role of carbon-nutrient balance 88 (1996) 121
Size-density
Linkages between silviculture and ecology: an analysis of density management diagrams 86 (1996) 205
Skewness information
Stand table modelling through the Weibull distribution and usage of skewness information 81 (1996) 19
Slash
Carbon and nitrogen in coniferous forest soils after clear-felling and harvests of different intensity 82 (1996) 19
Slash burning
Nutrient transfer to the atmosphere by burning of debris in eastern Amazonia 86 (1996) 121
Slope position
Seasonal changes in photosynthesis of young *Cryptomeria japonica* growing on ridges and foot-slopes 89 (1996) 93
Snag
Old-growth white spruce and balsam poplar forests of the Peace River Lowlands, Wood Buffalo National Park, Canada: development, structure, and diversity 81 (1996) 179
Soil
Carbon and nitrogen in coniferous forest soils after clear-felling and harvests of different intensity 82 (1996) 19
Effects of drainage, tilling and PK-fertilization on bulk density, total N, P, K, Ca and Fe and net N-mineralization in two peatland forestry sites in Newfoundland, Canada 84 (1996) 97
Soil acidification
Factors influencing decline in soil pH in Hawaiian *Eucalyptus* and *Albizia* plantations 80 (1996) 47
Effects of different forest harvest intensities on the pools of exchangeable cations in coniferous forest soils 84 (1996) 135
Soil acidity
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259
Soil compaction
Soil compaction and topsoil removal effects on soil properties and seedling growth in Amazonian Ecuador 82 (1996) 197
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of south-eastern Australia 84 (1996) 159
Influence of logging traffic on the hydromorphic degradation of acid forest soils developed on loessic loam in middle Belgium 87 (1996) 193
Soil degradation
Influence of logging traffic on the hydromorphic degradation of acid forest soils developed on loessic loam in middle Belgium 87 (1996) 193
Soil disturbance
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of south-eastern Australia 84 (1996) 159
Soil erosion
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of south-eastern Australia 84 (1996) 159
Soil fertility
Effects of light and soil fertility on growth, leaf chlorophyll content and nutrient use efficiency of beech (*Fagus sylvatica* L.) seedlings 86 (1996) 61
Soil hardness
Microtopography, soil hardness and survival of mangrove (*Rhizophora apiculata* BL.) seedlings planted in an abandoned tin-mining area 81 (1996) 243
Soil moisture relations
Effects of root competition and canopy openness on survival and growth of tree seedlings in a tropical seasonal dry forest 82 (1996) 33
Soil rehabilitation
Effect of site preparation techniques on *Prosopis juliflora* in an alkali soil 80 (1996) 267
Soil respiration
Forest floor carbon pools and fluxes along a regional climate gradient in Maine, USA 84 (1996) 81
Soils
Geographic variation in leaf, cone and seed morphology of *Pinus greggii* in native forests 82 (1996) 145
South Africa
Botryosphaeria dothidea endophytic in *Eucalyptus grandis* and *Eucalyptus nitens* in South Africa 89 (1996) 189
South east Australia
Biological inventory for conservation evaluation I. Design of a field survey for diurnal, terrestrial birds in southern Australia 85 (1996) 107
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Biological inventory for conservation evaluation III. Relationships between birds, vegetation and environmental attributes in southern Australia 85 (1996) 197
South-western Australia
Conserving biodiversity and the recognition of heterogeneity in ancient landscapes: a case study from south-western Australia 85 (1996) 219

Spacing
Spatial dynamics and impacts of *Pissodes terminalis* (Coleoptera: Curculionidae) in regenerating stands of lodgepole pine 82 (1996) 103
Spatial competition indices
Distance-dependent and distance-independent models of Douglas-fir and western hemlock basal area growth following silvicultural treatment 89 (1996) 1
Spatial dynamics
Long-term spatial dynamics in an old-growth deciduous forest 83 (1996) 189
Spatially explicit vegetation model
Long-term adaptation potential of Central European mountain forests to climate change: a GIS-assisted sensitivity assessment 80 (1996) 133
Spatial pattern
An evaluation of forest landscape spatial pattern and wildlife community structure 89 (1996) 139
Spatial prediction
Biological inventory for conservation evaluation II. Composition, functional relationships and spatial prediction of bird assemblages in southern Australia 85 (1996) 123
Biological inventory for conservation evaluation III. Relationships between birds, vegetation and environmental attributes in southern Australia 85 (1996) 197
Spatial variability
Variability of nitrification potentials in patches of undergrowth vegetation in primary Scots pine stands 86 (1996) 97
Species diversity
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259
Species population structure
Regeneration of canopy tree species at five sites in West African moist forest 84 (1996) 61
Species richness
Biodiversity and management of riparian vegetation in Western Australia 85 (1996) 239
Specific gravity
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25
Spline
Taper equations for *Pinus taeda* plantations in Southern Brazil 83 (1996) 39
Spruce beetle
Classification of spruce beetle hazard in Lutz and Sitka spruce stands on the Kenai Peninsula, Alaska 84 (1996) 251
Spruce budworm
Incidence and impact of *Polygraphus rufipennis* (Coleoptera: Scolytidae) in Newfoundland 89 (1996) 173
Stand density
The relationship between Reineke's stand-density index and physical stem mechanics 81 (1996) 25
Growth in loblolly pine plantations as a function of stand density and canopy properties 82 (1996) 49
Stand density management diagram
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Stand development
Stand structure and development after gypsy moth defoliation in the Appalachian Plateau 89 (1996) 79
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
Stand dynamic
A basal area increment model for individual trees growing in even- and uneven-aged forest stands in Austria 80 (1996) 57
Stand dynamics
Effects of long-term annual and periodic burning on tree survival and growth in a Missouri Ozark oak-hickory forest 82 (1996) 1
Development of mixed-oak forests in southeastern Ohio: a comparison of second-growth and old-growth forests 84 (1996) 1
Stand management
Model computations on wind flow and turning moment by wind for Scots pines along the margins of clear-cut areas 83 (1996) 203
Nutrient cycling in a Chinese-fir (*Cunninghamia lanceolata*) stand on a poor site in Yishan, Guangxi 89 (1996) 115
Stand modeling
Needle, crown, stem, and root phytomass of *Pinus sylvestris* stands in Russia 82 (1996) 59
Stand simulation
A basal area increment model for individual trees growing in even- and uneven-aged forest stands in Austria 80 (1996) 57
A crown ratio model for Austrian forests 84 (1996) 49
Stand structure
Impact of forest management history on the state of forests in relation to natural forest succession Comparative study, North Karelia, Finland vs. Republic of Karelia, Russian Federation 83 (1996) 71
State forest
Cutting of trees by local residents in a communal area and an adjacent state forest in Zimbabwe 81 (1996) 101
Stem analysis
Wood production in a natural stand of *Acacia karroo* in Zimbabwe 88 (1996) 289
Stem growth efficiency
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Stem volume increment
Alternative measures of stem growth efficiency applied to *Abies balsamea* from four canopy positions in central Maine, USA 84 (1996) 209
Stocking
Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89
Stomatal conductance
Effects of irrigation and coppicing on above-ground growth, physiology, and fine-root dynamics of two field-grown hybrid poplar clones 80 (1996) 163
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197

Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47
Strategies for conservation
Conservation in temperate forests: what do we need to know and do? 85 (1996) 9
Stratification
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231
Streamwater quality
Effects of clear-cutting on streamwater quality in forest catchments in central Sweden 83 (1996) 237
Subtropical humid forest
Fine root decomposition and nutrient mineralization patterns in a subtropical humid forest following tree cutting 86 (1996) 141
Succession
Sixty years of management and natural disturbance in a New England forested landscape 81 (1996) 63
Population dynamics of tree seedlings in a mixed dipterocarp rainforest before and after logging and crown liberation 81 (1996) 85
Old-growth white spruce and balsam poplar forests of the Peace River Lowlands, Wood Buffalo National Park, Canada: development, structure, and diversity 81 (1996) 179
Sunflecks
Light reduction by regional haze and its effect on simulated leaf photosynthesis in a tropical forest of Malaysia 89 (1996) 205
Sun height
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Surface waterlogging
Influence of logging traffic on the hydromorphic degradation of acid forest soils developed on loessic loam in middle Belgium 87 (1996) 193
Survey design
Current approaches to modelling the environmental niche of eucalypts: implication for management of forest biodiversity 85 (1996) 95
Survival
Survival, growth and wood density of *Pinus kesiya* and *Pinus oocarpa* provenances at Kihanga Arboretum, Sao Hill, Tanzania 87 (1996) 1
Sus scrofa scrofa
Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands 88 (1996) 71
Sustainability
Mycorrhizal relations in trees for agroforestry and land rehabilitation 81 (1996) 1
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Biodiversity in natural versus managed forest in Denmark 85 (1996) 47
Sustainable development
Conservation of biological diversity in temperate and boreal forest ecosystems 85 (1996) 1
Binoculars and satellites: developing a conservation framework for boreal forest wildlife at varying scales 85 (1996) 53
Sweden
Effects of different forest harvest intensities on the pools of exchangeable cations in coniferous forest soils 84 (1996) 135
Influence of light conditions in canopy gaps on forest regeneration: a new gap light index and its application in a boreal forest in east-central Sweden 84 (1996) 187
Sylvopastoral systems
Mycorrhizal relations in trees for agroforestry and land rehabilitation 81 (1996) 1
Systematic, stratified, regional biological survey
Biological inventory for conservation evaluation I. Design of a field survey for diurnal, terrestrial birds in southern Australia 85 (1996) 107
Tamarack
Needle litter responses of peatland tamarack and black spruce to fertilization of minerotrophic peatland sites 87 (1996) 257
Tanzania
Deforestation and regrowth phenology in miombo woodland – assessed by Landsat Multispectral Scanner System data 84 (1996) 263
Taper function
Taper equations for *Pinus taeda* plantations in Southern Brazil 83 (1996) 39
Teak plantation
Ecology of *Bambusa arudinacea* (Retz.) Willd. growing in teak plantations of Kerala, India 87 (1996) 149
Temperate and boreal forests
Conservation of biological diversity in temperate and boreal forest ecosystems 85 (1996) 1
Temperate conifers
Variation in stable carbon isotope discrimination among and within exotic conifer species grown in eastern Nebraska, USA 83 (1996) 181
Temperate eucalypt forests
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Temperate forest dynamics
Biodiversity in natural versus managed forest in Denmark 85 (1996) 47
Temperate forests
Conservation in temperate forests: what do we need to know and do? 85 (1996) 9
Austrocedrus chilensis and *Nothofagus dombeyi* stand development during secondary succession, in northwestern Patagonia, Argentina 89 (1996) 125
Temperature
Germination ecology of twelve indigenous and eight exotic multipurpose leguminous species from Ethiopia 80 (1996) 209
Forest floor carbon pools and fluxes along a regional climate gradient in Maine, USA 84 (1996) 81
Temporal scale
Expanding the scale of forest management: allocating timber harvests in time and space 87 (1996) 27
Terminal weevil
Influence of drainage and edge vegetation on levels of attack and biological performance of the white pine weevil 82 (1996) 133

Terrestrial biosphere model
Will forest preserves protect temperate and boreal biodiversity from climate change? 85 (1996) 335
Tessellation
Distance-dependent and distance-independent models of Douglas-fir and western hemlock basal area growth following silvicultural treatment 89 (1996) 1
Thailand
Abundance and growth of rattans in Khao Chong National Park, Thailand 84 (1996) 71
The Great Plains
Variation in stable carbon isotope discrimination among and within exotic conifer species grown in eastern Nebraska, USA 83 (1996) 181
Thinning
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Distance-dependent and distance-independent models of Douglas-fir and western hemlock basal area growth following silvicultural treatment 89 (1996) 1
Threatened species
The paradox of forest conservation in South Africa 85 (1996) 35
Timber
Financial returns from sustainable forest management and selected agricultural land-use options in Costa Rica 81 (1996) 35
Timber harvesting
Soil physical and hydrological properties following logging and slash burning in the *Eucalyptus regnans* forest of south-eastern Australia 84 (1996) 159
Timber production
Implementing biodiversity conservation through the British Columbia Forest Practices Code 85 (1996) 67
Timber trees
A compilation of known Guianan timber trees and the significance of their dispersal mode, seed size and taxonomic affinity to tropical rain forest management 83 (1996) 99
Time-series
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Tolerable limits
Assessment of tolerable browsing by Eiberle's method: Limitations and future prospects 88 (1996) 87
Tomicus piniperda
Monterrey pine (*Pinus radiata* D. Don) suitability for the pine shoot beetle (*Tomicus piniperda* L.) (Coleoptera: Scolytidae) 86 (1996) 73
Topsoil
Soil compaction and topsoil removal effects on soil properties and seedling growth in Amazonian Ecuador 82 (1996) 197
Tracheid
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Trade-offs
Integrating conservation and forestry production: exploring trade-offs between biodiversity and production in regional land-use assessment 85 (1996) 251
Transport
Lower planetary boundary layer profiles of atmospheric conifer pollen above a seed orchard in northern Ontario, Canada 83 (1996) 87
Tree age
Arthropod biomass in winter and the age of longleaf pines 82 (1996) 115
Tree and crop competition
Influence of orientation on wheat yield and photosynthetic photon flux density (Q_p) at the tree and crop interface in a *Paulownia*–wheat intercropping system 89 (1996) 149
Tree and crop interface
Influence of direction and distance from trees on wheat yield and photosynthetic photon flux density (Q_p) in a *Paulownia* and wheat intercropping system 83 (1996) 171
Tree bole
Effect of stem height, dominance class, and site quality on sapwood permeability in loblolly pine, (*Pinus taeda* L.) 83 (1996) 163
Tree breeding
Comparison of *Eucalyptus urophylla* provenance performance at half-rotation in Colombia and hybrid strategies with *Eucalyptus grandis* 83 (1996) 117
Tree growth
Base cation fertilization and liming effects on nutrition and growth of Vermont sugar maple stands 84 (1996) 123
Patterns of herbivory by the ash bud moth *Prays fraxinella*: implications for the silviculture of ash in Europe 84 (1996) 231
Tree health
Comparing sampling strategies in forest monitoring programs 82 (1996) 231
Tree improvement
Effect of intertree competition on biomass production of *Pinus sylvestris* (L.) half-sib families 86 (1996) 105
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia 88 (1996) 283
Tree legume
Root system characteristics with agroforestry relevance of nine leguminous tree species and a spontaneous fallow in a semi-deciduous rainforest area of West Africa 84 (1996) 199
Tree legumes
Nodulated and non-nodulated *Prosopis chilensis* (Mol) St. seedlings: economy of carbon and nitrogen 89 (1996) 25
Tree regeneration
Regeneration of canopy tree species at five sites in West African moist forest 84 (1996) 61
Tree selection
Autumn frost damage: clonal variation in Sitka spruce 80 (1996) 107

Tree vitality
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis 88 (1996) 237
Tree volume estimation
Generalised Importance sampling 86 (1996) 221
Trichoderma harzianum
Screening of antagonistic fungi against air-borne infection by *Heterobasidion annosum* on Norway spruce 88 (1996) 249
Tropical deciduous forests
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181
Tropical ecosystem
Light reduction by regional haze and its effect on simulated leaf photosynthesis in a tropical forest of Malaysia 89 (1996) 205
Tropical evergreen forests
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181
Tropical forestry
Logging damage during planned and unplanned logging operations in the eastern Amazon 89 (1996) 59
Tropical highland
Performance of *Grevillea robusta* in plantations and on farms under varying environmental conditions in Rwanda 80 (1996) 279
Tropical moist forest
Regeneration of canopy tree species at five sites in West African moist forest 84 (1996) 61
Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon 88 (1996) 215
Tropical rain forest
A gradient of seedling growth from the centre of a tropical rain forest canopy gap 82 (1996) 239
Tropical rainforest
Mycorrhizal associations of tropical legume trees in Sierra Leone, West Africa 89 (1996) 89
Tropical tree demography
Abundance, growth and mortality of very large trees in neotropical lowland rain forest 80 (1996) 235
Tsuga heterophylla
Distance-dependent and distance-independent models of Douglas-fir and western hemlock basal area growth following silvicultural treatment 89 (1996) 1
Turbulence
Model computations on wind flow and turning moment by wind for Scots pines along the margins of clear-cut areas 83 (1996) 203
Turgor
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197
Turning moment
Model computations on wind flow and turning moment by wind for Scots pines along the margins of clear-cut areas 83 (1996) 203
Uganda
Changes following 60 years of selective timber harvesting in the Budongo Forest Reserve, Uganda 89 (1996) 101
Undergrowth species
Variability of nitrification potentials in patches of undergrowth vegetation in primary Scots pine stands 86 (1996) 97
Understorey biomass
Grazing effects of ungulates in a Galician oak forest (northwest Spain) 88 (1996) 65
Understory competition
Understory competition effect on tree growth and biomass allocation on a coastal old-growth forest cutover site in British Columbia 83 (1996) 1
Understory vegetation
Aboveground biomass and nutrient accumulation in an age sequence of paper birch (*Betula papyrifera*) in the Interior Cedar Hemlock zone, British Columbia 83 (1996) 27
Uneven-aged
A crown ratio model for Austrian forests 84 (1996) 49
Effects of alternative management regimes on forest stand structure, species composition, and income: a model for the Italian Dolomites 87 (1996) 107
Ungulate
Dietary overlap of three ungulate species in the Palava Biosphere Reserve 88 (1996) 139
Ungulate damage
Impact of wild ungulates on forest regeneration and tree composition of mountain forests in the Western Italian Alps 88 (1996) 93
Ungulate ecology
Ungulates in temperate forest ecosystems: perspectives and recommendations for future research 88 (1996) 205
Ungulates
Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps 88 (1996) 43
Impact of ungulates on forest vegetation and its dependence on the silvicultural system 88 (1996) 107
Ungulates in forest ecosystems
Ungulates in temperate forest ecosystems: perspectives and recommendations for future research 88 (1996) 205
Uptake
Nutrient cycling in a Chinese-fir (*Cunninghamia lanceolata*) stand on a poor site in Yishan, Guangxi 89 (1996) 115
Urograndis
Comparison of *Eucalyptus urophylla* provenance performance at half-rotation in Colombia and hybrid strategies with *Eucalyptus grandis* 83 (1996) 117
Validation
Estimating diameter at breast height and basal diameter of trees from stump measurements in Nepal's lower temperate broad-leaved forests 81 (1996) 75
Vegetation
Old-growth forest studies in Victoria, Australia. Concepts and principles 85 (1996) 79
Vegetation changes
Herb layer vegetation of south Swedish beech and oak forests —effects of management and soil acidity during one decade 88 (1996) 259

Vegetation communities
Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession 88 (1996) 31
Vegetative propagation
Vegetative propagation of *Milicia excelsa* by leafy stem cuttings: effects of auxin concentration, leaf area and rooting medium 84 (1996) 39
Vegetative propagation of *Irvingia gabonensis*, a West African fruit tree 87 (1996) 185
Vernal species
The effects of shade on the plant communities of rides in plantation woodland and implications for butterfly conservation 80 (1996) 197
Vertebrate conservation
The paradox of forest conservation in South Africa 85 (1996) 35
Verticillium bulbillosum
Screening of antagonistic fungi against air-borne infection by *Heterobasidion annosum* on Norway spruce 88 (1996) 249
Vesicular–arbuscular mycorrhizae
Mycorrhizal associations of tropical legume trees in Sierra Leone, West Africa 89 (1996) 89
Viability
Seed germination of woody legumes from deciduous tropical forest of southern Mexico 82 (1996) 171
Virola elongata
Soil compaction and topsoil removal effects on soil properties and seedling growth in Amazonian Ecuador 82 (1996) 197
Water relations
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197
Site preparation effects on Douglas-fir and lodgepole pine water relations following planting in a pinegrass-dominated clearcut 83 (1996) 47
Seasonal water relations of three broadleaved species (*Fagus sylvatica* L., *Quercus petraea* (Mattuschka) Liebl. and *Quercus pyrenaica* Willd.) in a mixed stand in the centre of the Iberian Peninsula 84 (1996) 219
Water-use efficiency
Variation in stable carbon isotope discrimination among and within exotic conifer species grown in eastern Nebraska, USA 83 (1996) 181
Water use strategies
Growth of 16 provenances of *Eucalyptus microtheca* in a regularly irrigated plantation in eastern Kenya 82 (1996) 11
Weed control
Growth at age 30 months of *Acacia* and *Eucalyptus* species planted in *Imperata* grasslands in Kalimantan Selatan, Indonesia 82 (1996) 185
Weeds
Biodiversity and management of riparian vegetation in Western Australia 85 (1996) 239
Weevil
Spatial dynamics and impacts of *Pissodes terminalis* (Coleoptera: Curculionidae) in regenerating stands of lodgepole pine 82 (1996) 103
West Africa
Regeneration of canopy tree species at five sites in West African moist forest 84 (1996) 61
Vegetative propagation of *Irvingia gabonensis*, a West African fruit tree 87 (1996) 185
Western Ghats
Fine root biomass distribution and productivity patterns under open and closed canopies of tropical forest ecosystems at Kodayar in Western Ghats, South India 86 (1996) 181
Wet deposition
Effect of nitrogen deposition level on nitrogen uptake and bud burst in Norway spruce (*Picea abies* Karst.) seedlings and N uptake by soil microflora 89 (1996) 197
Wheat yield
Influence of direction and distance from trees on wheat yield and photosynthetic photon flux density (Q_p) in a *Paulownia* and wheat intercropping system 83 (1996) 171
White spruce
Failure of natural regeneration after clearcut logging in Wood Buffalo National Park, Canada 87 (1996) 89
Whole-tree harvesting
Carbon and nitrogen in coniferous forest soils after clear-felling and harvests of different intensity 82 (1996) 19
Effects of different forest harvest intensities on the pools of exchangeable cations in coniferous forest soils 84 (1996) 135
Wild boar
The population modelling of fallow deer and wild boar in a Mediterranean ecosystem 88 (1996) 7
Wildlife ecology
Impact of ungulates on forest vegetation and its dependence on the silvicultural system 88 (1996) 107
Wildlife habitat
An empirical habitat model for moose, *Alces alces*, in Algonquin Park, Ontario 81 (1996) 169
Wildlife management
Temporal and spatial dynamics of boreal forest structure in western Newfoundland: silvicultural implications for marten habitat management 87 (1996) 13
Wind
Model computations on wind flow and turning moment by wind for Scots pines along the margins of clear-cut areas 83 (1996) 203
Winter injury
Seasonal changes in photosynthesis of young *Cryptomeria japonica* growing on ridges and foot-slopes 89 (1996) 93
Wood density
Survival, growth and wood density of *Pinus kesiya* and *Pinus oocarpa* provenances at Kihanga Arboretum, Sao Hill, Tanzania 87 (1996) 1
Wood-destroying fungi
Preliminary quantitative estimation of wood decomposition by fungi in a Russian temperate pine forest 81 (1996) 249
Woodland
Effects of season and intensity of sheep grazing on tree regeneration in a British upland woodland 88 (1996) 99

Woodland ride
The effects of shade on the plant communities of rides in plantation woodland and implications for butterfly conservation 80 (1996) 197
Woodlands
Progress in predictive management of deer populations in British woodlands 88 (1996) 187
Wood product
Dynamics and potentials of carbon sequestration in managed stands and wood products in Finland under changing climatic conditions 80 (1996) 113
Wood production
Conserving biological diversity in Australia's temperate eucalypt forests 85 (1996) 21
Wood production and conservation
Benign neglect and active management in Tasmania's forests: a dynamic balance or ecological collapse? 85 (1996) 279
Wood yield
Wood production in a natural stand of *Acacia karroo* in Zimbabwe 88 (1996) 289
Yellow cypress
Water relations, gas exchange and morphological development of fall- and spring-planted yellow cypress stecklings 81 (1996) 197
Yield
Performance of *Grevillea robusta* in plantations and on farms under varying environmental conditions in Rwanda 80 (1996) 279
Growth expectations from alternative thinning regimes and prescribed burning in naturally regenerated loblolly-shortleaf pine stands through age 20 81 (1996) 227
Effect of provenance variation and singling and pruning on early growth of *Acacia mangium* Willd. plantation on *Imperata cylindrica* (L.) Beauv. dominated grassland 84 (1996) 241
Yunnan pine
Spatial distribution patterns of pine sawflies (Hymenoptera: Diprionidae) in Arizona, US and Sichuan, PR of China 86 (1996) 151
